An overview of the agenda and meeting format was provided including advising members of the public that there would be an opportunity for questions later in agenda.

Sean Lyons thanked everyone for their efforts in magnificently handling the challenges faced by the Trust over the last year during which there had been extreme pressure. It was confirmed the Trust had made great progress within capital investment particularly with the two new Emergency Departments (ED), along with IT and Digital who had commenced work alongside Hull University Teaching Hospitals (HUTH) moving forward to a greater working relationship. Sean Lyons expressed his thanks to the Governors who had provided challenge, wisdom and guidance which had been very valuable in connecting with the public.

Council Decision: The Council received the annual audit report for 2021/22

10 minute break and meeting resumed at 15:25

3. COG BRIEFINGS

3.1 Integrated Care System (ICS) Update

Sean Lyons introduced Sue Symington, Chair of the ICB. Sue Symington introduced herself and provided a brief background to roles held before becoming the Chair of the ICB. Sue Symington delivered a comprehensive overview of the ICS and operating model.

Sean Lyons thanked Sue Symington for the presentation and highlighted that a further update to the CoG might be worthwhile in the future as the landscape of the ICS develops.

Council Decision: The Council received an update on the ICS.

3.2 Emergency Department and the future of Emergency Care Update

Sean Lyons introduced the video footage from the new ED at Diana, Princess of Wales Hospital (DPoW) where Natalie Till, Operational Matron, delivered a full tour of the new facilities.

Ian Reekie provided an update on the Governor elections currently in progress and expressed his thanks to two Governors, Mo Dobson and Brian Page who were both due to retire soon.

Sean Lyons endorsed Ian Reekie's remarks and expressed thanks and gratitude to both Mo Dobson and Brian Page for their long and distinguished service.

Council Decision: The Council received an update on the Governor Elections.

4. QUESTIONS

Sean Lyons welcomed questions from the room and virtually on any of the updates provided during the meeting or alternatively any other business.

Question One - what would happen to the current Scunthorpe Hospital site and money spent on updating it currently should the new hospital fund be approved?

Answer - if successful the leading time of formal approvals wouldn't be until 2025/26, it would take three-four years to build taking the overall time to eight-ten years. It could take two or three attempts before the Trust arrives at the top of the list for approval and we have a need for decent facilities now so continued investment in maintaining the hospital is required. The thinking at the moment is that the current site would be disposed of although this could change due to the timescales involved.

Question Two- concerned about the public perception of the ICS as another layer of bureaucracy and management and how would this be managed?

Answer - One ICS replaced the six Clinical Commissioning Groups (CCGs) on 1st July 2022 and the resultant staff changes mean there is now a smaller group of staff and further economies will come in terms of the estate changes too. Everyone is working to ensure there is not more bureaucracy and this will be evidenced later. If the ICS is successful, this should also lead to less regional teams in line with the mandate to reduce these by 40%. The key success of the ICS will be driven by effective partnership working.

Question Three – Is there any idea what the Care Quality Commission (CQC) might sight?

Answer – The CQC will report on what they witnessed and the feedback was nothing significant was found if it had been a letter would have been received from the CQC. The Trust had received no poor communication from the CQC which had been better than previous years and would build on the work covered in the last two years.

Question Four – Given the number of loans and deficit how was the Trust a going concern?

Answer – A going concern should have the ability to trade for a further twelve months, having sixty million pounds in the bank and no shortage of patients; the Trust is considered a going concern.

Question Five – How confident are the Trust that the new ED can be fully staffed and how much of a difference will it make to performance?

Answer – A recruitment campaign was launched a few months back for the new ED which had been reasonably successful, unfortunately the Trust had become beholden to the Immigration Authorities which had caused delays with staffing. It was confirmed that despite the remaining gaps in the workforce the department would be able to function and by Christmas it was hoped the DPoW ED would be fully staffed.

It was confirmed buildings would not impact performance levels and the Trust have been working hard behind the scenes on patient pathways. Following on from the tour of the new ED patients can be segregated into areas designed for the demands meaning patients should be seen faster and keep flow moving. It was confirmed that 98% of patients who could be treated within the ED would go home within two hours and further improvement was expected over the next twelve months.

Question Six – – In relation to the new EDs and staffing, how will you make sure it is not used for politicalisation?

Answer – By focussing on the overall strategy and also what are the issues in common across the areas, such as improved mortality, a better start in life for children etc. This will be a process which will also need to be respectful of different issues in the different areas.

Council Decision: The Council received the questions and answers

5. REFLECTION OF FORMAT FOR FUTURE REVIEW

Sean Lyons invited feedback on the format of the meeting held.

David Cuckson suggested a roving microphone to be passed around the room to enable everyone to hear more clearly.

Paul Grinell suggested publicising the meeting to more people other than just the members. In response Ade Beddow confirmed that the meeting had been publicised over social media and the website for several weeks leading up to the day and would consider other areas of promotion for the future.

Council Decision: The Council discussed the format of the meeting for future review

6. ITEMS FOR INFORMATION

Sean Lyons highlighted the Acronyms and Glossary of Terms as an item for information.

2. REVIEW OF OPERATION AND PERFORMANCE

A brief overview was provided by Helen Harris on the revised framework tool and the adapted process which involved collating and circulating Governor feedback in advance of the meeting, and the Council progressed through framework as below.

2.1 ROLE OF GOVERNORS

2.1 (a) Do you fully understand the role of the Governor and CoG as a whole, and is the operation of the CoG influenced by the needs of the local community?

Helen Harris highlighted that there had been a low response rate with only eight completed framework documents from fifteen Governors.

A positive response was provided by 87.5% of the Governors who responded understood their Governor Role, the CoG as a whole, and the operation of the CoG.

Helen Harris highlighted that an area requiring strengthening was the accountability to the local community.

Jeremy Baskett queried the future role of the Governor as the role is currently under review within the new NHS structures and was in a state of flux. In response Sean Lyons highlighted this was due to recent legislation which would broaden the role of the Governor and not fundamentally change the building blocks.

2.1 (b) Is the CoG satisfied with the level of attendance and engagement with the Trust Board (Executive Directors, NEDs and the Senior Independent Director (SID)), and do Governors have sufficient opportunity to question Directors? And do you feel your concerns are taken seriously and feedback given where agreed?

Helen Harris reported that 100% of Governors were satisfied with the level of attendance and engagement with the Trust Board.

Helen Harris highlighted it had been agreed that Executive Directors only attend for their agenda item as required due to Governors holding Non-Executive Directors to account and not Executive Directors.

2.1 (c) Do Governors feel the Trust Chair keeps CoG members informed about the key activities and risks concerning the Board of Directors?

Helen Harris reported a positive response by 100% of Governors to this question. Key comments provided were proactive engagement between the Trust Chair, Vice Chair and Governors and equally Non-Executive Directors had been transparent in making Governors aware of key developments and risks.

Sean Lyons welcomed suggestions regarding other mechanisms of keeping in touch with Governors on a routine basis.

Jeremy Baskett suggested that further work would be required in relation to closer working relationships between Hull University Teaching Hospitals (HUTH) and Northern Lincolnshire and Goole NHS Foundation Trust (NLaG) and queried how the information would be provided to Governors.

Sean Lyons highlighted the three new Stakeholder Governors who would be very helpful in providing a direct link into their respective areas which in turn would help Governors hold the Trust to account.

Ian Reekie confirmed he was not fully assured by the work taking place within the Committees in Common and the Interim Clinical Plan. In response Linda Jackson suggested a briefing on the Interim Clinical Plan to be delivered by Michelle Cady. Sean Lyons confirmed there had been a huge amount of work progressing behind the scenes in selecting points of leadership, process, strategies and structures which had not been completed yet although was maturing.

Fiona Osborne provided assurance to the group by confirming monthly meetings with David Hughes, Non-Executive Director Chair for Quality and Safety Committee (Q&SC) at HUTH and quarterly meetings with Ian Reekie and Diana Barnes to discuss specific areas and concerns from a Governors perspective.

David Cuckson expressed his disappointment with the attendance of Governors at the meeting and queried whether there were enough volunteer organisations represented within the Governors. It was confirmed by Sean Lyons and Ian Reekie that a review of the Trust Constitution was due to take place which would include a review of the composition of Governors.

David Cuckson confirmed that he had not received the review framework and was therefore unable to provide his response.

Council Action: Membership Office to arrange briefing on Interim Clinical Plan to be delivered by Michelle Cady.

2.1 (d) Do the Lead/Deputy Lead Governors keep you informed of developments of interest to governors between meetings and effectively represent the interests of governors in discussions with the Trust Chair/Deputy Chair and Director of Corporate Governance/Assistant Trust Secretary?

Helen Harris confirmed a positive response was received and Sean Lyons commended Ian Reekie and Rob Pickersgill on the feedback.

2.2 ENGAGEMENT WITH MEMBERS AND STAKEHOLDERS

2.2 (a) How do you as a Governor feel opinions are canvassed and represented on the interests of Trust staff and public members and the general public, and are these effectively feedback to the Board of Directors for inclusion in the governance of the Trust?

Helen Harris highlighted a Governor response in relation to the lack of Governor engagement with members and the community and confirmed this would be discussed further in section 4 although welcomed any questions. None were received.

2.2 (b) How do you feel Governors communicate about the Trust, its vision and performance to members, the public and stakeholder organisations who elected or appointed you?

Helen Harris confirmed this area would be discussed further in section 4.

2.3 ACCOUNTABILITY

2.3 (a) Do Governors use their voting rights as a CoG to effectively hold Non-Executive Directors (NEDs) individually and collectively to account for the performance of the Board of Directors?

100% of Governors rated this process as clearly defined and robust, and Helen Harris confirmed there were no further points to be highlighted and welcomed any questions. None were received.

2.3 (b) Are Governors confident that the Audit, Risk and Governance Committee criteria for appointing, re-appointing and removing external auditors is effective?

Helen Harris highlighted one point raised was a lack of providers for the external audit contract which presents a challenge. The Trust were conscious of the issue and there were other Trusts in a similar position.

2.3 (c) Do the CoG receive and consider appropriate information to enable it to discharge its duties?

Helen Harris highlighted the overuse of jargon and acronyms in reports and presentations meaning members and the community had difficulty in fully understanding the documentation and this must be considered in the future.

Council Action: Membership Office to provide an Acronyms and Glossary of Terms as a standard item for information for all meetings.

2.4 CONDUCT OF MEETINGS

2.4 (a) Does the membership and size of the CoG remain fit for purpose?

Helen Harris confirmed a positive response and highlighted the previously discussed new Stakeholder Governors and review of the Trust Constitution. It was queried how the CoG should engage with the members and public which would be discussed in section 4.

2.4 (b) Are there sufficient meetings to address the workload of the CoG and is the balance between the work undertaken at the CoG and at sub-groups correct?

Helen Harris reported that a positive response was received highlighting the revised schedule of the CoG and Governor Assurance Group (GAG) meetings supplemented by ad-hoc briefing was working effectively.

2.4 (c) Are the agenda, minutes and supporting documents circulated in good time for meetings. Are Governors satisfied that you are provided with the key information on the performance of the Trust to be able to discharge your duties as a governor?

Helen Harris reported that 100% of the responses were positive due to the significant improvements in the clarity of the information received by revising the format of the Board Assurance Framework (BAF) and Integrated Performance Report (IPR) and assurance committee highlight reports.

2.5 PERSONAL DEVELOPMENT

2.5 (a) Are governors satisfied that the mechanisms in place are appropriate to identify and meet Governor training needs?

75% of Governors reported being satisfied with the training mechanisms in place. Helen Harris confirmed that a response suggested further consideration needs to be given to the provision of occasional externally facilitated development sessions. It was confirmed this should be discussed within a later section with a view to having a proposal to take forward.

David Cuckson raised a concern regarding the response from one Governor suggesting they had not been aware of any training and whether they had been approached individually. Helen Harris noted this point and confirmed that a wider discussion must take place regarding training and queried if this had been missed during induction.

Jeremy Baskett suggested an annual appraisal for Governors which would include any training areas required.

Ian Reekie suggested development sessions to boost team working which had a particular topic relevant at the time.

Kevin Allen confirmed that he had completed his induction training although was not aware on any ongoing training available.

Diana Barnes confirmed that notifications of NHS Providers training sessions had been provided and had duly participated in them.

Council Action:

- **Helen Harris and Alison Hurley to arrange development reviews and/or appraisals with Governors**
- **Membership Office to arrange team working development sessions**

2.5 (b) Do Governors feel that they have received sufficient induction and training to fulfil their role?

Helen Harris confirmed that an investigation into any tailored training modules available from NHS Providers would follow which could be face to face as a group and not virtual.

Shiv Nand highlighted that online training had been successful due to the availability of Governors and there had been a lack of virtual access to certain meetings throughout the year.

David Cuckson reminded the group of regional training meetings previously delivered by Monitor. In response Sean Lyons confirmed that NHS Providers had a wealth of content available.

Helen Harris confirmed there had been a national governor conference earlier in the year which had not been attended by any governors from NLaG. Dates for the conference next year would be provided to Governors at the earliest convenience to ensure availability.

Council Action: Membership Office to identify dates for the national conference and notify Governors.

Post meeting note:

- **The conference was called Governor Focus Conference.**
- **Governors could sign up to the NHS Providers newsletter where workshop dates were advertised - :**
<https://nhsproviders.org/development-offer/governor-support/support-and-guidance/helpful-resources/governor-focus-newsletter>

2.6 SHAPING THE FUTURE

2.6 (a) Do Governors feel that they make a useful contribution and have had the opportunity to be sufficiently involved in activities within the Trust that influence the future of either clinical services or the Foundation Trust as a whole?

Helen Harris reported that a positive response and feedback had been received. Further questions or comments were sought. None were received.

2.6 (b) Is there sufficient dialogue on the Trust's forward plan?

Helen Harris confirmed a timetable had been produced with regards to the Quality Priorities which included Governor consultation in response to a comment highlighting insufficient Governor consultation for the 2022/23 Quality Priorities.

2.7 STANDARD OF CONDUCT

2.7(a) Are Governors satisfied about the agreed process to remove any Governor from the Council who consistently and unjustifiably fails to attend the meetings of the CoG, has an actual or potential conflict of interest which prevents the proper exercise of their duties or whose behaviours or actions as a Governor or group of Governors may be incompatible with the values and behaviours of the Trust?

Governors provided a positive response despite the notification that enforcement had not been sufficiently robust. Sean Lyons suggested this referred to Governor attendance and highlighted that criteria and processes were in place which could remove any Governor with poor attendance from the group. It was confirmed that a register of attendance was produced covering Governor meetings which could be used as evidence or invoke the processes in place.

Jeremy Baskett highlighted that there were key members of the group who do not attend regularly although provide a valuable input and should they be removed it could be difficult to recruit a suitable replacement. In response Sean Lyons agreed and suggested it should be dealt with sensitively.

It was confirmed that previously discussions had taken place with individual Governors which resulted in them stepping down from the role due to a change in circumstances.

2.7(b) Are Governors aware of the ability of the CoG to exercise its power to remove the Trust Chair or any NEDs after exhausting all means of engagement with the Board of Directors?

Most Governors were aware and one Governor was not aware this was an absolute power. Helen Harris confirmed this should have been covered during the induction process

Shiv Nand suggested arranging 15 Step Challenges in the evening or weekend due to persistently being unable to attend during the working week.

Post meeting note: Evening and weekend 15 Step Challenge had been included within the Chief Nurse annual review in April 2022. The result of this review had been shared with Sean Lyons, Helen Harris, Alison Hurley and Shiv Nand.

10 minute break – meeting resumed at 12:00 hours

3. GOVERNOR HOLDING TO ACCOUNT ROLE

Ian Reekie highlighted that one of the two principal duties of governors was to hold NEDs individually and collectively to account for the performance of the Trust Board. He suggested that there were four questions that needed to be addressed; how do we assess performance of the Board, how do we assess the collective contribution of NEDs, how do we assess the individual contribution of NEDs (including the Chair) and is there more we should be doing?

David Cuckson queried whether the NEDs were holding executive directors to account and were the Governors seeing enough of this happening. Kevin Allen agreed with these sentiments and queried if where the Board had made decisions or targets to meet had these been fulfilled.

Jeremy Baskett suggested the BAF was a good indicator alongside the committee highlight reports which could be checked against each other.

Kate Truscott confirmed that on application a job description was provided detailing duties, responsibilities and objectives which Governors should have sight of and provide a helpful aid memoir.

Ian Reekie queried how CoG assess Board performance and highlighted the current processes in place:

- Observing Trust Board (TB) meetings
- Scrutinising TB papers and minutes
- Observing Board assurance committee meetings
- Scrutiny by the GAG of the committee highlight reports
- Reports from the Chair
- Scrutinising Finance and Quality Accounts
- CQC Well Led Report

Ian Reekie suggested it would not be viable to hold NEDs to account for everything and perhaps Governors should consider the Trust's Strategic aims and priorities and joint governance arrangements with HUTH.

Linda Jackson confirmed that most of the challenge happened from NEDs at the sub-committees which translated to challenge at the TB although there was challenge outside of the committees. It was confirmed the significance of relationships between the NEDs and Executive Directors (ED) not only to provide challenge but also to provide support. Linda Jackson reminded the group that Governors had the opportunity to contribute to NED appraisals.

Ian Reekie queried how the CoG assessed the individual and collective NED contribution which had partially been covered. It was confirmed that the collective contribution was covered by:

- Looking at the TB and the TB dynamics
- How the NEDs challenged the ED

Ian Reekie suggested the individual contributions were assessed by Governors in the following ways and queried whether these were satisfactorily discharged:

- Leadership of the Trust Chair and Vice Chair
- Effectiveness of NED Chairs of each committee
- Appropriateness of individual NEDs challenge and questions at TB
- Chair and NED appraisals
- Reappointments and removal if required

Sean Lyons queried what was the role of NED in relation to shaping the culture of the organisation and how does the individual relate to the challenges of the Trust? It was confirmed the role of the TB was to ensure there was a strategy and accountability.

Simon Parkes highlighted the NHS guidance available which questioned whether the Board and decision making reflected the interest of the members and public, was due process being followed and was the Trust at risk of breaching the conditions of its licence.

Fiona Osborne suggested specific concerns need highlighting which could be discussed at the GAG although as NEDs we require information fed through from the public and what their queries would be.

Kate Truscott suggested the TB had an annual review which would provide feedback and assessment of the work achieved by the Board. It was confirmed that a Board review had not taken place. Helen Harris confirmed a Trust Board Effectiveness Review had been prepared and was awaiting further discussion with Peter Reading, Sean Lyons and Linda Jackson.

Jeremy Baskett suggested the development and support of NEDs and to some degree the NEDs hold the Governors to account.

Ian Reekie drew attention to the new responsibility of Governors which was to hold NEDs to account for the Trust's contribution to system wide plans and the delivery and Trust's openness to collaboration with other partners. It was queried how the Governors assessed the contribution the Trust and the NEDs are making to system wide planning and Ian Reekie suggested the need to scrutinise the relationship between the Trust and system planning through board papers. It was suggested to

scrutinise the relationship between the Trusts strategic objectives and priorities against the Integrated Care Partnership (ICP) Strategy. It was confirmed that assessing the Trust Board's contribution to system delivery could be achieved by attending ICB meetings and minutes, scrutinising the Trusts performance relative to system performance and system wide priorities such as Health Inequalities. The Trusts openness to collaborative working could be assessed by the Trusts contribution to the acute and community collaboratives and the Place Health and Care Partnerships which could include feedback from Stakeholder Governors.

Sean Lyons advised that some of the items mentioned were emerging and once the Integrated Care Strategy was finalised many points would pull through. It was confirmed there had been no lack of willingness to participate although he highlighted the demands being placed on EDs in attending so many meetings of places and collaboratives. Sean Lyons highlighted that due to scarce resources and higher demand it was key that current resources were not diluted. Jeremy Baskett agreed there was a danger of over engagement and co-ordination was key. Sean Lyons responded by confirming the health of the population needed a holistic approach and not an illness response service rather than prevention.

Linda Jackson confirmed that in addition to the ICP briefing a date should be added to diaries for the Acute Collaborative update. It was confirmed that the Strategic Development Committee (SDC) had received several requests to become involved with wider groups which would require careful consideration of how it should be managed. It was important to remember that everyone had their own day jobs to fulfil before becoming involved in other groups and what should take priority.

Ian Reekie thanked the group for their contributions.

Council Action: Membership Office to arrange ICP and Acute Collaborative briefings

4. GOVERNOR ENGAGEMENT ROLE

Sean Lyons welcomed Ade Beddow and Charlie Grinhaff to the meeting to discuss how we should engage with members and the public.

Ade Beddow raised several points regarding what the Trust was trying to achieve through engagement. Was the Trust trying to recruit new members and if so, why? Would we like to communicate more with members and what would we like to communicate with them about? Should we provide news items such as the new Emergency Department opening, should we advise what the Board are working on and should we advise what the Governors are working on?

David Cuckson queried the number of current members and whether more members were required. In response Ade Beddow confirmed there were approximately 12,000 members and recruitment had been reactive and not proactive.

Kevin Allen confirmed that as a volunteer at the Trust he felt the public were the people who engagement should focus on and less so members. It was suggested Governors spend the day as a volunteer guide which would identify areas of concern or requiring attention. Sean Lyons agreed this was a very good point which brings into question the validity of the membership notion.

Kate Truscott highlighted that in order to be a Foundation Trust it must have members and the Trust requires different strategies for different audiences such as members and the general public.

Ian Reekie suggested that recruiting new members was not a priority and engagement with current members and the public was. He confirmed that his four days acting as a guide at the new DPoW ED had highlighted several concerns which he had brought to the attention of relevant managers. He encouraged other Governors to volunteer occasionally to act as a guide to pick up useful patient feedback.

Sean Lyons highlighted the need for a public engagement strategy.

Jeremy Baskett queried what the requirement of the members was and whether communication was a two-way direction of travel or just one way. It was suggested to target specific people with specific topics which would encourage focus and work alongside Accord, the local Councils and Place Partnerships.

Ade Beddow confirmed that there was an Engagement Director at the ICB who was creating an ICB approach to this area of work. It was confirmed that several hours had been spent working with Place to create an Engagement Strategy and also with the ICB which did not include North Lincolnshire and East Riding of Yorkshire. Ade Beddow suggested patient involvement groups to encourage members and the public with specific areas of interest instead of bombarding with irrelevant topics.

Fiona Osborne was not concerned with the reduced membership number which could reflect quality rather than quantity. It was highlighted that there was a hierarchy which must be observed at public meetings, the Governors represent the public and members and the NEDs represent to the Governors at the Trust Board.

Helen Harris confirmed there had been showcasing events organised by other Trusts which included diverse communities, vulnerable people which had been held at community centres and town halls such as Baths Hall in Scunthorpe which would be accessible to the local people. It was highlighted that NHS Providers hold a Member and Public Engagement training event which could be delivered virtually or in house.

In response to a query Ian Reekie confirmed that any feedback received from the public was ad hoc and was distributed to the relevant Executive Director or department as required. It was suggested that a more structured approach should be introduced for such feedback.

Kevin Allen confirmed that Jo Loughborough was due to present at local schools explaining the procedure when coming into hospital and queried whether this approach could be extended to other communities.

Ian Reekie reminded the group that they must not miss the Humber Acute Services consultation which would prove vital and provide a building block. Sean Lyons agreed and highlighted this would be in 2023 which provides time to prepare.

Sean Lyons highlighted the new and enhanced membership newsletter which had recently been circulated and suggested creating a small task and finish group with Governors to capture the feedback and member engagement. Group members volunteered and were initially to include Ian Reekie, Rob Pickersgill, Jeremy Baskett, Kevin Allen, Kate Truscott, Helen Harris to be convened by Ade Beddow and Charlie

Grinhaff. It was agreed the group would create a Terms of Reference (ToR) to be presented to the CoG in January 2023.

Council Action:

- **Membership Office to provide details of NHS Providers Member and Public Engagement training**
- **Communications team to create task and finish group for Member Engagement and present ToR at the CoG in January**

5. REFLECTION OF FORMAT FOR FUTURE REVIEW MEETING

Sean Lyons welcomed any feedback regarding the format of future Annual Review meetings and it was agreed the same structure would be used in 2023.

David Cuckson queried the suitability of the room due to the number of attendees and cost of the venue. Sean Lyons suggested the possible use of the Boardroom at Diana, Princess of Wales Hospital (DPoW) and Linda Jackson suggested the Lecture Theatre and Robert Holme Hall.

Jeremy Baskett queried whether the meeting could be virtual to encourage attendance. In response Sean Lyons suggested a hybrid meeting might be the best approach.

6. ANY OTHER BUSINESS

David Cuckson expressed his concern regarding the lack of external auditor and queried who would be overseeing this. In response Helen Harris confirmed that unfortunately Mazars had advised the Trust they could no longer fulfil the external auditors role. It was confirmed that the Trust must have an external auditor and a process would be followed to recruit an external auditor and Governors would have the right to agree or disagree with the appointment. Sean Lyons confirmed that Trust would be compliant. Helen Harris agreed to contact Sally Stephenson and Lee Bond for an update regarding the external auditors.

Shiv Nand highlighted he would be happy to suggest a few external auditors should the need arise.

Council Action: Helen Harris to request an update from Sally Stevenson and Lee Bond regarding the external auditors.

Post meeting note: Lee Bond confirmed discussions were taking place with a prospective company and would provide an update once available

Council Action: Helen Harris to contact Brian Shipley regarding the summary of the CIP following the July CoG.

2. REPORTS AND UPDATES

2.1 CHAIR'S UPDATE

Sean Lyons drew the Council's attention to the Chair's report and which was taken as read. Sean Lyons expressed thanks to the three Non-Executive Directors who had left the Trust, Mike Proctor, Michael Whitworth and Maneesh Singh and welcomed Sue Liburd and Kate Truscott. Similarly, thanks were extended to both Mo Dobson and Brian Page for their service as Governors following their decision to stand down. It was

highlighted that the Care Quality Commission (CQC) report was expected for factual accuracy checks with the full report due in December. Sean Lyons confirmed that the Trust remained under massive operational pressures and that staff had coped with demanding pressures over the last few months. Governors were encouraged to continue with the appreciation of staff during visits as this had been positive.

Sean Lyons welcomed any questions and none were received.

Council Decision: The Council received the Chair's update

2.2 CHIEF EXECUTIVE'S UPDATE

Sean Lyons welcomed Jug Johal, Director of Estates and Facilities who was representing Dr Peter Reading and provided an update to the CoG.

The report was taken as read and the following was highlighted:

- Service pressure and staff resilience
- There had been 32 patients waiting for beds
- There had been zero patients with the right to reside from North East Lincolnshire and five patients from North Lincolnshire
- The opening of the new £17.9 million Emergency Department (ED) at Diana, Princess of Wales Hospital (DPoW) which had provided a significant improvement to patient pathways
- Pay award and industrial action – both the Royal College of Nursing (RCN) and UNISON had notified the Trust they would be balloting their members regarding industrial action
- Confirmation the Trust would receive £6.3 million to refurbish theatres at both Scunthorpe General Hospital (SGH) and DPoW

Jug Johal welcomed any questions and none were received.

Sean Lyons thanked Jug Johal for the update and expressed congratulations on the opening of the new ED.

Council Decision: The Council received the Chief Executive's update

2.3 LEAD GOVERNOR'S UPDATE (to include highlights from the Governor Assurance Group (GAG) and Appointments & Remuneration Committee (ARC) meetings)

Ian Reekie provided an overview of the Lead Governors' report which covered updates on the following:

- Stakeholder Governors – three of the four vacancies had been filled with a particular welcome to Eddie McCabe representing North East Lincolnshire Health and Care Place Partnership
- The recent Governor election had filled three of the seven vacancies, one staff Governor and two North East Lincolnshire public Governors
- Governor briefings
- Governor site visits
- Governor Assurance Group (GAG) Highlights

- Appointments & Remuneration Committee (ARC) Highlights

Sean Lyons invited questions for Ian Reekie.

In response to a question Ian Reekie confirmed that Governor elections took place annually however within the review of Trust Constitution all outstanding issues were to be discussed including the possibility of secondment.

A discussion took place regarding the announcement of the new Governors and due to the election timetable, it was not appropriate to disclose the information during the meeting as a withdrawal period for nominations was still active.

Council Decisions: The Council received the Lead Governor's update.

3. STRATEGY & PLANNING – COG BRIEFINGS

3.1 Recruitment and Retention

Christine Brereton delivered a presentation on Recruitment and Retention.

Sean Lyons thanked Christine Brereton and invited any questions.

Liz Stones informed the group that at the beginning of employment as a nurse in previous years you were asked to sign and agree to remain in a specialist area for a couple of years. Patients much preferred to be cared for by nursing staff with an interest in the area in which they were being cared for example orthopaedics. In response Christine Brereton agreed with this thought which provides a sense of belonging to the staff. Unfortunately, due to pressures, staff were sometimes being asked to move to another area due to capacity.

Shiv Nand thanked Christine Brereton for the very insightful presentation and requested further information regarding retention and the buddy system. It was confirmed that a temporary resource was in place to help with the buddy system particularly for overseas employees. The buddy does not have to be a clinical buddy and perhaps someone with experience of being in a similar position themselves previously.

Shiv Nand queried whether staff who decided to leave the Trust moved to another Trust or were they perhaps going home to their country of origin or leaving the industry completely. Christine Brereton confirmed there was no specific data available for this although highlighted that relationships on wards and the culture of the organisation was key. Shiv Nand queried whether incentivisation could ensure staff remained at the Trust for longer periods. In response Christine Brereton confirmed that one of the reasons staff were not staying with the Trust was due to relationships on the wards and should the Trust provide incentives to remain for two years this could provide uncomfortable situations for staff. It was confirmed that considerable effort had been made with cultural awareness training which had been well received. Liz Stones suggested an incentive scheme to help their wellbeing which could provide discount at local gyms, health clubs and shops and ensure they felt supported. Christine Brereton confirmed the

Trust had a health and wellbeing package which was offered to all staff and more recently a financial wellbeing package which provides a directory of information.

Shiv Nand queried whether there was any requirement from Governors in this area. Christine Brereton suggested support and the benefits of working for the Trust which included bridging the gap around cultural awareness and behaviours on the wards.

Tim Mawson expressed disappointment in the length of time it takes to process visas for overseas staff highlighting one case which had taken five months between recruitment and the new staff arriving in the hospital. If it takes five months to fill vacancies and staff leaving only provide two months notice it was clear why there were shortages in some cases. Christine Brereton confirmed there had been pressure applied both regionally and nationally and improvements had been made in recent months.

Kevin Allen queried whether schools with nursery places available were identified to new starters particularly staff joining from out of the area or overseas. Christine Brereton confirmed the wellbeing directory contained information regarding local schools, GP's and shops.

Ian Reekie questioned whether there were any lessons learned from Hull University Teaching Hospitals (HUTH) regarding the use of bank and agency staff taking into account their accessibility to a medical school. Christine Brereton confirmed collaborative working alongside HUTH, York and Scarborough Teaching Hospitals NHS Foundation Trust and Harrogate and District NHS Foundation Trust to agree a rate of pay consistent across the Integrated Care System (ICS). Discussions had taken place regarding one bank system and not individual for each hospital. Christine Brereton confirmed there had been involvement in the Integrated Care Board (ICB) People Strategy although would have preferred further involvement. It was confirmed that the recruitment situation is a national issue and must be tackled at ICB level.

Paul Grinell expressed his disappointment in delay in joining the Patient Experience Group (PEG) due to a delay with the Disclosure and Barring Service (DBS) certificate. It was confirmed this had taken four months to receive due to an error in countersigning which was not solely due to the DBS. In addition, Paul Grinell had been advised there was no Recruitment team at SGH. It was queried whether applicants had lost interest in the post they had applied for due to delays in processing documents and find employment elsewhere. Christine Brereton confirmed there was a Recruitment team which works across the whole Trust, it was well resourced and had fared well on benchmarking. It was confirmed the Trust works closely with the DBS and that documents had varied in processing times with some taking three days and others taking months. Christine Brereton was happy to continue the conversation with Paul Grinell outside of the meeting to further investigate the problems encountered.

Sean Lyons thanked Christine Brereton for the informative presentation and requested Governors receive the Financial Wellbeing Directory.

Council Decision: The Council received an update on Recruitment and Retention

Council Action: Christine Brereton to circulate the Wellbeing Directory to the CoG

Post meeting note: Christine Brereton provided the Financial Wellbeing Directory to the CoG via email following the meeting

There was a five minute break and the meeting resumed at 14:15

3.2 Health Inequalities Briefing

Jug Johal delivered a presentation on Health Inequalities alongside Beth Ellett and Ashy Shanker.

Jug Johal confirmed a project search not mentioned on the slides which was an opportunity for young adults with learning difficulties to be trained and employed by the Trust. It was confirmed that Estates and Facilities had agreed to provide eight places to these young adults which would deliver on site training and the potential of full time employment after one year. Jug Johal suggested this approach should be rolled out across the Trust and Christine Brereton agreed. It was suggested by Jug Johal that a further update to the CoG in one year would be appropriate.

In response to a query it was confirmed by Jug Johal that Community Nurse Specialist was abbreviated to CNS.

David Cuckson raised a query regarding alcohol dependency money allocated to North East Lincolnshire patients and whether that would be available to North Lincolnshire patients. Jug Johal confirmed that this money was ring fenced for North East Lincolnshire patients and that referring patients between local authorities was not possible although for tobacco dependency the money was available for the whole of the system.

Ian Reekie queried the waiting list management with regards to outcomes of risks assessments as there was evidence to suggest that the most deprived patients wait longer to be referred than patients in more affluent areas. Jug Johal confirmed that patients were kept in chronological order unless they had been identified as at risk, in which case they would be moved up the waiting list appropriately. It was confirmed a Trust in the south of the country was piloting a scheme which identified mental health or learning disability patients who were then treated sooner due to the risks.

Madeleine Keyworth highlighted that the 111 service had advised to attend the out of hours GP service at SGH in June 2022. At the time it was not known that this service was now held in a surgery elsewhere in Scunthorpe and after arriving at SGH followed the signs to the out of hours GP centre only to find it no longer existed in that location. It was confirmed that these signs were still in situ some months later despite the hospital not providing this service. Madeleine Keyworth confirmed this had been discussed with a local Clinical Commissioning Group (CCG) who agreed to contact the 111 service and NLaG explaining the problems encountered. Jug Johal apologised for the incorrect signage and confirmed it would be removed the

following day. It was confirmed there was no knowledge of any escalation from the CCG or other partners. Kevin Allen confirmed there had been discussions with the Estates and Facilities team regarding all signage around the hospitals particularly with the new ED department.

Sean Lyons requested a test to the 111 service to ensure directions to the out of hours GP were correct and not to SGH as previously advised. Jug Johal agreed to take this as an action.

Madeleine Keyworth questioned whether nurses had a higher rate of smokers than the general population. Jug Johal confirmed this data had not been investigated.

Shiv Nand queried how success was measured within the tobacco and alcohol dependency programmes. Jug Johal suggested the specialists leading the programmes would be able to provide the answer to this and confirmed an email to Governors would follow the meeting.

Kate Truscott was delighted to hear of the project search idea and highlighted there was a local charity called Lincolnshire Community Trust which could be used to make connections.

Kate Truscott queried how mental health patients tied in with the alcohol and tobacco dependency projects. In response Beth Ellett identified that as part of the long term plan all mental health and voluntary sector organisations would be represented which would be a system approach.

Helen Harris raised a question on behalf of two Trust members which queried why money was spent on new car parks at both DPoW and SGH and not elsewhere in the Trust. Jug Johal confirmed that as part of the planning requirement all car parking spaces lost due to the new two EDs had to be replaced which had provided four or five extra spaces. Elizabeth Haddock advised that a friend had found the new car park very difficult to enter and exit. Jug Johal confirmed he had not received any similar feedback.

Council Decision: The Council received an update on Health Inequalities

Council Action:

- **Jug Johal to remove the Out of Hours GP signage from SGH and test the 111 service directions**
- **Jug Johal to provide details of how success was measured within the tobacco and alcohol dependency programmes**

Post meeting note: Jug Johal confirmed the Out of Hours GP signage had been removed on Friday 14th October 2022

3.3 Operational Update to include plans and winter pressures

Shaun Stacey delivered a presentation on emergency care, planned care and winter pressures.

Liz Stones left the meeting at 16:08

Shaun Stacey provided an update following work alongside partners in East Riding, Lincolnshire and North Lincolnshire meaning the position was more satisfactory. It was confirmed there had been 22 patients who did not have the right to reside in the Trusts hospitals, the average on a weekly basis had been 69 patients.

Ian Reekie queried whether the extension of the Urgent Care Service (UCS) and Same Day Emergency Care (SDEC) was a winter plan or aspirational. Shaun Stacey confirmed that UCS was an integrated service using GPs and ED staff and was aspirational to become a 24/7 service. It was confirmed that funding had been requested for SDEC although it would be a challenge to provide cubicles, nursing and diagnostic facilities at this time although possibly in the next year.

Jeremy Baskett queried whether early discharges would be in place for Lincolnshire patients. Shaun Stacey confirmed that pressure had been applied although was unsure how it would be received through United Lincolnshire Hospitals NHS Trust (ULH).

Helen Harris provided a compliment submitted from a 94 year old lady who had attended NLaG and had waited three hours. Shaun Stacey was grateful for the compliment and explained that many were received despite the current pressures.

Elizabeth Haddock highlighted that a family member worked at Kings College Hospital in London and confirmed that there were few agency staff employed. In response Sean Lyons confirmed the struggle to attain this although the Trust was working to recruit and retain their own staff. Kate Truscott highlighted that fewer agency staff was an aspiration and was not currently achievable. A discussion ensued regarding the possible strike action which highlighted the cost of living was a national issue.

Sean Lyons thanked Shaun Stacey for the update.

4. ITEMS FOR APPROVAL

4.1 Governor Register of Interests

Sean Lyons invited members to review the updated Governors' Register of Interests document.

Council Decision: The Council approved the Governor Register of Interests

5. QUESTIONS FROM GOVERNORS

Sean Lyons invited questions from Governors. None was received.

6. QUESTIONS FROM THE PUBLIC

Sean Lyons invited questions from members of the public.

Helen Harris read out the following query as requested:
The query relates to a very busy waiting room in the eye clinic as follows:

To look into the “overcrowding” at Grimsby Eye Clinic caused by patients attending with family/friends who are taking up seats in the waiting room meant for patients. Perhaps more prominent signage, guidelines printed as leaflets sent out with appointments. Use of the TV monitor in the waiting room to convey vital information, as the TV is hardly ever turned on to TV programmes. Grimsby Eye Clinic waiting room is internal without windows, very small busy area with constant traffic of Nurses and patients moving around, through, back and forth to OCT /Eye Test/ laser/Fluoroscope/ Consultant Rooms and to the other small waiting room not to mention to Max - facial department. The waiting room gets very warm, extremely stuffy and not a place I wish to sit in for over an hour, especially as patients and visitors are now not wearing masks.

In response to the query and follow up complaint, Giselle Lowe, the Outpatients Nurse Manager (DPoW) who looks after the nursing staff and HCAs that work in outpatients has responded as follows:

A new post has been funded by the RNIB to help patients, and we have Joanne Almey in this Trustwide Eye Clinic Liaison Officer role. So far, her support has been gratefully received by everyone that she has helped and she is a welcome addition to the eye clinic team. Her support includes:

- Emotional and practical support (including referrals to other services and support groups)
- Support for patients and their family and friends too
- Specialised support with:
 - Living with sight loss
 - Eye conditions and treatment
 - Welfare benefits
 - Remaining in employment or re-training
 - Mental health and emotional wellbeing
 - Aids, equipment and technology
 - The legalities around driving
 - Referrals to RNIB services including courses and audio books.
- ECLOs are also able to explain the process of becoming registered as blind or partially sighted and the benefits of being registered.

The eye clinic is a busy area which does not have sufficient seating capacity. During COVID, this was managed as it was requested that only patients attended due to social distancing requirements. The staff do ask people to move round to seats near the reception as needed, offer patients beepers so they can go for a coffee whilst they are waiting and suggest that relatives come back later - sometimes people are grateful for these suggestions and sometimes not. Unfortunately, we are constrained by the physical building that we are based in. We do try to manage patient flow as effectively as possible and the person raising these concerns is correct that patients can go in various different locations during a visit, but this is so that they can have tests done etc., in that one visit.

The televisions in the waiting room are not in use and were to be removed the next day. They were donated a long time ago and are now technologically out of date and haven't been used in a long time. We have since successfully applied to the Health Tree Foundation charity and now have hospital radio in all of our waiting rooms.

7. ITEMS FOR INFORMATION

Sean Lyons drew the CoG's attention to the items for information contained within appendix A of the agenda which included the following documents:

9. MATTERS FOR ESCALATION TO THE TRUST BOARD

Sean Lyons invited Governors to raise any matters for escalation to the Trust Board. None was received.

10. COUNCIL PERFORMANCE AND REFLECTION

Sean Lyons invited suggestions for future meetings highlighting the technology required further work to allow for hybrid meetings in the future. It was suggested that the room layout should be a formal horseshoe shape and not casino style tables.

***Board Assurance Framework (BAF) Descriptions:**

1.	To give great care
1.1	To ensure the best possible experience for the patient, focussing always on what matters to the patient. To seek always to learn and to improve so that what is offered to patients gets better every year and matches the highest standards internationally. <u>Risk to Strategic Objective:</u> The risk that patients may suffer because the Trust fails to deliver treatment, care and support consistently at the highest standard (by international comparison) of safety, clinical effectiveness and patient experience.
1.2	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to deliver constitutional and other regulatory performance targets which has an adverse impact on patients in terms of timeliness of access to care and/or risk of clinical harm because of delays in access to care.
1.3	To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term. <u>Risk to Strategic Objective:</u> The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.
1.4	To offer care in estate and with engineering equipment which meets the highest modern standards. <u>Risk to Strategic Objective:</u> The risk that the Trust's estate, infrastructure and engineering equipment may be inadequate or at risk of becoming inadequate (through poor quality, safety, obsolescence, scarcity, backlog maintenance requirements or enforcement action) for the provision of high quality care and/or a safe and satisfactory environment for patients, staff and visitors.
1.5	To take full advantage of digital opportunities to ensure care is delivered as safely, effectively and efficiently as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's digital infrastructure (or the inadequacy of it) may adversely affect the quality, efficacy or efficiency of patient care and/or use of resources, and/or make the Trust vulnerable to data losses or data security breaches.
1.6	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's business continuity arrangements are not adequate to cope without damage to patient care with major external or unpredictable events (e.g. adverse weather, pandemic, data breaches, industrial action, major estate or equipment failure).
2.	To be a good employer
2.	To develop an organisational culture and working environment which attracts and motivates a skilled, diverse and dedicated workforce, including by promoting: inclusive values and behaviours, health and wellbeing, training, development, continuous learning and improvement, attractive career opportunities, engagement, listening to concerns and speaking up, attractive remuneration and rewards, compassionate and effective leadership, excellent employee relations. <u>Risk to Strategic Objective:</u> The risk that the Trust does not have a workforce which is adequate (in terms of diversity, numbers, skills, skill mix, training, motivation, health or morale) to provide the levels and quality of care which the Trust needs to provide for its patients.
3.	To live within our means
3.1	To secure income which is adequate to deliver the quantity and quality of care which the Trust's patients require while also ensuring value for money for the public purse. To keep expenditure within the budget associated with that income and also ensuring value for money. To achieve these within the context of also achieving the same for the Humber Coast and Vale HCP. <u>Risk to Strategic Objective:</u> The risk that either the Trust or the Humber Coast and Vale HCP fail to achieve their financial objectives and responsibilities, thereby failing in their statutory duties and/or failing to deliver value for money for the public purse.
3.2	To secure adequate capital investment for the needs of the Trust and its patients. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to secure and deploy adequate major capital to redevelop its estate to make it fit for purpose for the coming decades.
4.	To work more collaboratively
4.	To work innovatively, flexibly and constructively with partners across health and social care in the Humber Coast and Vale Health Care Partnership (including at Place), and in neighbouring Integrated Care Systems, and to shape and transform local and regional care in line with the NHS Long Term Plan. <u>Risk to Strategic Objective:</u> The risk that the Trust is not a good partner and collaborator, which consequently undermines the Trust's or the healthcare systems collective delivery of: care to patients; the transformation of care in line with the NHS Long Term Plan; the use of resources; the development of the workforce; opportunities for local talent; reduction in health and other inequalities; opportunities to reshape acute care; opportunities to attract investment.
5.	To provide good leadership
5.	To ensure that the Trust has leadership at all levels with the skills, behaviours and capacity to fulfil its responsibilities to its patients, staff, and wider stakeholders to the highest standards possible. <u>Risk to Strategic Objective:</u> The risk that the leadership of the Trust (from top to bottom, in part or as a whole) will not be adequate to the tasks set out in its strategic objectives, and therefore that the Trust fails to deliver one or more of these strategic objectives

Chair's Update

I would like again to draw Governor's attention to the ongoing operational challenges that the Trust is facing as Winter pressures increase.

As usual, our staff are responding in the compassionate and caring way that they always do, but inevitably the personal strains will show through at times, and I would encourage Governors to show staff their appreciation whenever possible.

Welcome to new Governors

As mentioned in the last report, a number of Governor vacancies were being advertised, and I am delighted to let you know of the following appointments:

Karen Green - Governor, North East Lincolnshire
Mike Bateson - Governor, North East Lincolnshire

We welcome all our new Governors and look forward to their contribution to the Trust.

Robert Copley had been appointed as a Staff Governor but had now resigned from his substantive post with the Trust so was unable to undertake the Governor role. Thanks were noted to Robert for the support provided whilst in the role.

Development of a Group Leadership Model

Joint Group Chief Executive Recruitment Process

I can confirm that the advert for the role of joint Group Chief Executive went live on 29 November 2022 with a closing date of 9 January 2023.

The selection and appointment process will be held over a two-day period: Monday, 23 and Tuesday, 24 January 2023. Day 1 will include a series of stakeholder engagement events, at which Governor representation has been included.

Group Models: Learning from Elsewhere

As outlined in the Case for Change, an option appraisal is being undertaken of the range of group models and associated corporate governance arrangements operating elsewhere in the NHS. The output from that work will be considered at a board development event at the end of February 2023. This will ensure that executive and non-executive directors are able to help inform and shape the options as to what the HUTH : NLaG group arrangements might look like.

I will ensure Governors are appraised of how these discussions move forward, but please be assured that the sovereignty of NLaG as a Foundation Trust and the Council of Governors role will not be affected.

CQC Report

Governors will be aware that the Trust received a very much improved CQC report, following their inspection earlier in the year.

The CQC have stated that the Trust has now met the requirements for exiting the SOF4 categorisation for Quality concerns. This is a huge move forward and everyone involved deserves to be commended for this progress.

For the Trust to be formally removed from the SOF4 level, the Trust will need to continue to maintain control of its finances.

A formal review meeting to assess the overall position will take place in March 2023.

Thank you to Christine Brereton

I am sure Governors will join me in thanking Christine Brereton, Director of People, for her service with the Trust. Christine joins the Newcastle University Teaching Hospitals Foundation Trust as Chief People Officer. We wish her well for the future.

Welcome to Simon Nearney

As Christine leaves us, the Trust Remuneration and Terms of Service Committee have agreed that Simon Nearney, Director of People at HUTH, will also act as Director of People at NLaG on an interim basis. We wish Simon well in this role.

Chief Executive's Briefing

1. System Wide Operational Pressures

As Governors will be aware, the whole of the NHS is experiencing extraordinary pressure this winter at a level which, for those of us who have been around a long time, feels genuinely unprecedented. The combination of high levels of sickness in our communities leading to very high levels of emergency attendances and admissions, difficulties in the capacity of social care associated principally with their being able to recruit and retain staff in today's labour market, the urgent need to recover the huge pandemic legacy backlogs in electives, cancer care and diagnostics, and high levels of staff sickness (associated with high levels of sickness in the community but also reduced resilience amongst our staff due to the huge pressures placed on them over the last three years) have all been layered onto the structural issues in the NHS and social care, including capacity, pre-pandemic, which was already very stretched and a growing structural workforce deficit which has left 130,000 plus vacancies across the whole of the NHS. Against this background, the Trust's staff have worked tremendously hard to maintain services and to reduce the elective, cancer and diagnostic backlogs. We are also supporting our neighbours, particularly Hull and York and Scarborough, by providing Mutual Aid in the form of elective work on our sites to reduce their elective backlogs. The combination of all of this means that our staff are working under extraordinary pressure and the Trust performance in a number of areas falls far short of what anyone would want it to be, in particular with respect to ambulance handover times and the length of time patients stay in A&E. It should be noted, however, that the Trust's elective performance, while regrettably well below where it was as we entered the pandemic, remains among the best in the region.

I am sure that Governors will join me in expressing their huge gratitude to our staff and our leadership teams for their continued extraordinary efforts in such difficult circumstances, and also our sincere regrets to patients and their families whose experience of our care, particularly with regard to waiting times, falls well short of what they have a right to expect from the NHS.

Shaun Stacey, Chief Operating Officer, will present a more detailed operational report elsewhere on the agenda.

2. CQC Report

The Care Quality Commission (CQC), published its latest report on our Trust's hospitals (Community Services were not inspected on this occasion) on 2 December 2022. This item is covered fully elsewhere on the agenda.

3. Finance

In common with the rest of the acute hospital sector, the Trust is under substantial financial pressure, particularly associated with, in our case, the high costs of agency temporary staff. The Trust continues to work closely with NHS England to seek to meet the criteria for its exit from the 'financial special measures' element of the Recovery Support Programme (RSP) within the Strategic Oversight Framework Level 4.

4. NLaG's Investment Plans for its Digital and Estates Infrastructure in 2023.

The embedded [staff briefing](#) ('Building Our Future: find out what's in store for us next year', published in 29 December 2022) summarises our plans for investing in the digital and estates infrastructure in 2023, as we continue to roll out our £100m+ investment.

COUNCIL OF GOVERNORS

11 January 2023

Lead Governor's Update

GOVERNOR APPOINTMENTS

I am sure that all CoG members will wish to join me in welcoming to their first business meeting our two new colleagues Mike Bateson and Karen Green who were elected as governors in November. Their enthusiasm to get stuck in has already been demonstrated by Karen agreeing to join the Appointments & Remuneration Committee and by Mike joining the Governor Assurance Group. Unfortunately newly elected staff governor Robert Copley has subsequently resigned due to a change in his employment status. This means that we are still one staff governor and three public governors short of a full complement with two vacancies existing for North Lincolnshire and one for East/West Lindsey. Over the coming year we must do more to attract greater interest from our foundation trust members in putting themselves forward to stand in governor elections.

GOVERNOR BRIEFINGS/VISITS

Since the last CoG meeting there have been three governor briefings plus a site visit covering the following subjects:

- Group Leadership Model briefing – Thursday 20 October
- Goole and District Hospital site visit – Monday 31 October
- CQC Report pre-publication briefing – Thursday 1 December
- Interim Clinical Plan/Humber Acute Services briefing – Wednesday 14 December

The next planned briefing covering Critical Infrastructure and Capital Funding Options will be held on Tuesday 21 February. Suggestions from governors on topics for future briefings would be welcomed. As all briefings are now held virtually they will in future be recorded as a matter of course and will be available to view via Teams after the event by any governor or NED who is unable to participate live.

GOVERNOR ASSURANCE GROUP (GAG) HIGHLIGHTS

A meeting of the GAG was held on Thursday 10 November at which governors considered the content of board sub-committee highlight reports presented by NED chairs. Topics focused on included:

- the impact of diagnostic delays on cancer performance
- the compatibility of Pathlincs IT with HUTH systems
- the outcomes for lung cancer patients when referred direct to a tertiary centre rather than via NLaG
- the integration of the skin cancer service with the dermatology interim clinical plan service
- the likely impact of flexible working arrangements in attracting new recruits
- the interim Director of People cover arrangements

- the priorities and funding arrangements for community diagnostic centres
- the potential options to be included in the delayed Humber Acute Services consultation now scheduled for June 2023
- the potential need to introduce short notice changes to maternity provision due to service pressures throughout the winter
- the quality of counter fraud awareness and investigation
- the process for converting the longlist of potential quality priorities into an agreed set of priorities with key performance indicators

APPOINTMENT OF EXTERNAL AUDITORS

Governors will recall that following a tender evaluation exercise which was undertaken by a panel including Rob Pickersgill and David Cuckson, CoG members were asked to virtually approve the appointment of Azets as the Trust's External Auditors for a period of three years with the option to extend for a further year commencing with the financial year 2022/23. For the purpose of generating a formal minute of this decision CoG is now asked to note that approval of the appointment was forthcoming. However, since the decision was taken circumstances have arisen which place the award of the external audit contract in doubt at least for the full term envisaged. If necessary, a confidential verbal update will be provided for governors at the CoG meeting.

***Board Assurance Framework (BAF) Descriptions:**

1.	To give great care
1.1	To ensure the best possible experience for the patient, focussing always on what matters to the patient. To seek always to learn and to improve so that what is offered to patients gets better every year and matches the highest standards internationally. <u>Risk to Strategic Objective:</u> The risk that patients may suffer because the Trust fails to deliver treatment, care and support consistently at the highest standard (by international comparison) of safety, clinical effectiveness and patient experience.
1.2	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to deliver constitutional and other regulatory performance targets which has an adverse impact on patients in terms of timeliness of access to care and/or risk of clinical harm because of delays in access to care.
1.3	To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term. <u>Risk to Strategic Objective:</u> The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.
1.4	To offer care in estate and with engineering equipment which meets the highest modern standards. <u>Risk to Strategic Objective:</u> The risk that the Trust's estate, infrastructure and engineering equipment may be inadequate or at risk of becoming inadequate (through poor quality, safety, obsolescence, scarcity, backlog maintenance requirements or enforcement action) for the provision of high quality care and/or a safe and satisfactory environment for patients, staff and visitors.
1.5	To take full advantage of digital opportunities to ensure care is delivered as safely, effectively and efficiently as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's digital infrastructure (or the inadequacy of it) may adversely affect the quality, efficacy or efficiency of patient care and/or use of resources, and/or make the Trust vulnerable to data losses or data security breaches.
1.6	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's business continuity arrangements are not adequate to cope without damage to patient care with major external or unpredictable events (e.g. adverse weather, pandemic, data breaches, industrial action, major estate or equipment failure).
2.	To be a good employer
2.	To develop an organisational culture and working environment which attracts and motivates a skilled, diverse and dedicated workforce, including by promoting: inclusive values and behaviours, health and wellbeing, training, development, continuous learning and improvement, attractive career opportunities, engagement, listening to concerns and speaking up, attractive remuneration and rewards, compassionate and effective leadership, excellent employee relations. <u>Risk to Strategic Objective:</u> The risk that the Trust does not have a workforce which is adequate (in terms of diversity, numbers, skills, skill mix, training, motivation, health or morale) to provide the levels and quality of care which the Trust needs to provide for its patients.
3.	To live within our means
3.1	To secure income which is adequate to deliver the quantity and quality of care which the Trust's patients require while also ensuring value for money for the public purse. To keep expenditure within the budget associated with that income and also ensuring value for money. To achieve these within the context of also achieving the same for the Humber Coast and Vale HCP. <u>Risk to Strategic Objective:</u> The risk that either the Trust or the Humber Coast and Vale HCP fail to achieve their financial objectives and responsibilities, thereby failing in their statutory duties and/or failing to deliver value for money for the public purse.
3.2	To secure adequate capital investment for the needs of the Trust and its patients. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to secure and deploy adequate major capital to redevelop its estate to make it fit for purpose for the coming decades.
4.	To work more collaboratively
4.	To work innovatively, flexibly and constructively with partners across health and social care in the Humber Coast and Vale Health Care Partnership (including at Place), and in neighbouring Integrated Care Systems, and to shape and transform local and regional care in line with the NHS Long Term Plan. <u>Risk to Strategic Objective:</u> The risk that the Trust is not a good partner and collaborator, which consequently undermines the Trust's or the healthcare systems collective delivery of: care to patients; the transformation of care in line with the NHS Long Term Plan; the use of resources; the development of the workforce; opportunities for local talent; reduction in health and other inequalities; opportunities to reshape acute care; opportunities to attract investment.
5.	To provide good leadership
5.	To ensure that the Trust has leadership at all levels with the skills, behaviours and capacity to fulfil its responsibilities to its patients, staff, and wider stakeholders to the highest standards possible. <u>Risk to Strategic Objective:</u> The risk that the leadership of the Trust (from top to bottom, in part or as a whole) will not be adequate to the tasks set out in its strategic objectives, and therefore that the Trust fails to deliver one or more of these strategic objectives

PUBLIC MEMBER ENGAGEMENT

Member Engagement Working Group

At the CoG Annual Review Meeting on 13 October 2022 there was general agreement that we urgently need to raise our game in fulfilling one of governors' statutory responsibilities 'to represent the interests of FT members' by revitalising our communication and engagement. It was therefore decided to establish a Member Engagement Working Group which has since met on two occasions.

In the absence of a specific brief from the Annual Review Meeting the Working Group has compiled the draft Terms of Reference (ToR) attached as Appendix 1 which CoG is recommended to approve. Although the draft ToR are widely drawn, CoG is asked to note that the Working Group has decided to place two initial limitations on its considerations, namely:

- To initially concentrate on member rather than broader public engagement – Although it is reasonable to expect governors to influence and support NLaG's approach, public engagement strategy is primarily a Trust Board not a CoG responsibility.
- To focus on public member engagement – In the absence of any staff governors among its members the Working Group felt that it was ill equipped to consider whether engagement with staff who are FT members should differ in any way from the Trust's general approach to staff engagement.

Public Governor Profile

Currently the Trust has 6,377 public members who must live within one of the four constituencies and be aged 16 or above. All staff are also offered the opportunity to be enrolled as members when commencing employment with the Trust.

The tables below provide a detailed breakdown of the public membership as at 7 December 2022.

Member Engagement Background

The Trust has an existing four year Membership and Public Engagement Strategy which is due for review in 2023. In terms of engaging and communicating with members the strategy states that this should be done through a combination of Trust and Governor managed formal and informal communications, including:

- Promoting the work of the Trust and its governors on the Trust's website with a designated section for Members
- On-line membership recruitment form
- Council of Governors webpages including:
 - Governor Role information, meet the Governors section with photos and biographies
 - Details about Governor meetings and forums
 - Governor election page with details of the latest elections, how to stand as a Governor, the elections timetable, details of prospective Governor Roadshows, and results from recent elections
- Trust Members' Portal which provides detailed information about all the above and specifically Trust membership, the Council of Governors, elections, benefits of membership (including NHS discounts) and a page for the latest information
- Relevant information for new members about the Trust, the benefits of membership and the role of members via an e-welcome pack or postal pack
- Face to Face contact through quarterly Governor and Members Forums held at each of the three hospital sites including Goole Governor drop-in sessions
- Inviting members to engage in patient experience programmes, consultations and surveys to gain their views
- E-magazine produced bi-monthly (Joint Staff and Members' newsletter e-mailed to all members with e-mail address and available in hard copy across the Trust)
- E-mails on upcoming Governor and Member Forum invites, links to local Healthwatch organisations and any current key information
- Information to encourage members to stand in governor elections

- Twitter and Facebook posts
- Media releases
- Promotional posters across the Trust sites

The strategy states that the Council of Governors will:

- Maintain and develop a programme of events
- Review and develop membership materials and ensure the language is clear
- Develop strategies to inform the wider public and stakeholders about the Trust
- Evaluate the membership's response to different levels of information and methods of delivery
- Use various communication methods to facilitate effective communication with Members
- Regularly review the communication methods utilised to engage with members to ensure the needs of members are met.

For various reasons, primarily Covid restrictions, much of this planned work has not been delivered over the last three years. Initiatives currently in place are:

- A dedicated members page on the recently revamped Trust website <https://www.nlg.nhs.uk/patients/get-involved/membership/> which had 362 page views between October 2021 and October 2022 and a Meet our Governors page <https://www.nlg.nhs.uk/about/how-we-are-run/governors/> which had 504 views in the same period
- Two editions of a new e-newsletter were sent in September and November 2022 to the 53% of public members whose email addresses are known to the Trust. Initial data analysis suggests that these e-newsletters were opened by between 40-50% of members who received them.
- Information on posters in some areas of the hospital estates
- Promotion of governors on an ad-hoc basis through the Trust's social media accounts.

Member Survey

The Working Group decided that as a prerequisite to CoG taking any decisions regarding its future approach to member engagement the views of public members must first be sought. The questionnaire attached as Appendix 2 has therefore been drafted for CoG approval. It seeks to discover the preferences of public members in respect of:

- How they wish to be engaged (print/online/in person)
- How frequently they wish to be contacted (monthly/quarterly/less often)
- What they wish to be engaged about (topical issues/specific services/clinical pathways)

Whilst conducting a survey it is felt that the opportunity should be taken to seek to:

- Update contact details (particularly missing email addresses)
- Find out what aspects of the Trust's work members are particularly interested in
- Identify any members who might wish to get more involved in the work of the Trust through participating in patient groups or by volunteering

The Way Forward

If CoG is happy with the approach adopted by the Member Engagement Working Group it is intended to:

- Proceed with the proposed survey of public members and analyse the results
- Draft a revised public member communication and engagement strategy for CoG consideration taking account of the feedback received from members
- Develop detailed proposals for future public member communication channels
- Develop a detailed programme of future public member engagement opportunities
- Review the public member recruitment process.

APPENDIX 2

Northern Lincolnshire and Goole NHS Foundation Trust Member Communication and Engagement

Dear Fellow Foundation Trust Member

One of our principal responsibilities as NLaG governors is to represent the interests of you as a foundation trust member. To do this effectively we need to hear and understand your views and concerns. We know that we have not been very good at doing this and we are determined to improve our performance.

Over the past three years our engagement with you has been negligible. Publication of our Trust magazine which you used to receive ceased with the arrival of Covid. Also prior to the pandemic we used to invite members to attend talks by clinicians and to arrange drop-in sessions at our three hospitals to promote dialogue between members and governors. Some of these were well attended, others less so.

During Covid we haven't even been able to muster enough nominations to enable you to engage with the Trust by casting your vote in contested governor elections. So we recognise that there is an urgent need to revitalise our approach to communicating with you to ensure that your much valued interest in the work of NLaG is maintained.

To do this we need your help. We need to know:

- How you wish to be engaged (print/online/in person)
- How frequently you wish to be contacted (monthly/quarterly/less often)
- What you wish to be engaged about (topical issues/specific services/clinical pathways)

It would therefore greatly assist us if you could spare a few minutes to complete a short member survey. It would be easier for us and probably easier for you to do this online by clicking on this [Microsoft Forms link](#). Alternatively, if you are unable to or prefer not to go online please complete a hard copy of the attached survey and pop it in the post using our FREEPOST address:

FREEPOST - RRYL-SZKA-SYAU, Scunthorpe General Hospital, Cliff Gardens
Scunthorpe, DN15 7BH

We would also like to take this opportunity to ensure that we have your up-to-date contact details so please could you complete this section of the survey as well.

Thank you in anticipation for your ongoing support.

Yours sincerely

IAN REEKIE

Next steps

- **Initial response**

The CQC require an initial response to the report 4 weeks following publication: a detailed response to the 'MUST DO' actions (listing how the action will be achieved, how will improvements be sustainable, what measures will be in place to ensure sustainability, what resources may be required, are these resources available and how will patients be affected by not meeting the action). Reviewed by TMB & NED chairs, sent to CQC on 22nd December

- **Compare action plans**

An exercise is being undertaken to compare existing open actions from the 2019 report to the actions within the new report with a plan made on how to deal with existing actions being mindful to ensure actions remain embedded with appropriate monitoring mechanisms in place and amalgamation of any existing actions that feature in the new report. Paper being drafted

Next steps

- **Regular monitoring**

Regular progress meetings being scheduled with all action leads to commence work looking at the detail of each action, developing sub-actions, planning measurable KPIs and collating supporting evidence on the journey to completion

- **Governance oversight**

Actions are 'owned' by the divisions (and some corporate directorates) for engagement and leadership plus each action is aligned to a sub-committee. Regular progress meetings and support from compliance team. Monthly progress report to all sub-committees, TMB, QB and shared with CQC. Actions can improve or deteriorate- transparency. When completed, ratified at divisional governance, then executive review (further amendments back to divisional governance) then shared with CQC- continuous data stream including position papers when not completed yet but 'a story of progress to tell'. Quarterly review of all closed actions for sustainability- re-opened if necessary

***Board Assurance Framework (BAF) Descriptions:**

1.	To give great care
1.1	To ensure the best possible experience for the patient, focussing always on what matters to the patient. To seek always to learn and to improve so that what is offered to patients gets better every year and matches the highest standards internationally. <u>Risk to Strategic Objective:</u> The risk that patients may suffer because the Trust fails to deliver treatment, care and support consistently at the highest standard (by international comparison) of safety, clinical effectiveness and patient experience.
1.2	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to deliver constitutional and other regulatory performance targets which has an adverse impact on patients in terms of timeliness of access to care and/or risk of clinical harm because of delays in access to care.
1.3	To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term. <u>Risk to Strategic Objective:</u> The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.
1.4	To offer care in estate and with engineering equipment which meets the highest modern standards. <u>Risk to Strategic Objective:</u> The risk that the Trust's estate, infrastructure and engineering equipment may be inadequate or at risk of becoming inadequate (through poor quality, safety, obsolescence, scarcity, backlog maintenance requirements or enforcement action) for the provision of high quality care and/or a safe and satisfactory environment for patients, staff and visitors.
1.5	To take full advantage of digital opportunities to ensure care is delivered as safely, effectively and efficiently as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's digital infrastructure (or the inadequacy of it) may adversely affect the quality, efficacy or efficiency of patient care and/or use of resources, and/or make the Trust vulnerable to data losses or data security breaches.
1.6	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's business continuity arrangements are not adequate to cope without damage to patient care with major external or unpredictable events (e.g. adverse weather, pandemic, data breaches, industrial action, major estate or equipment failure).
2.	To be a good employer
2.	To develop an organisational culture and working environment which attracts and motivates a skilled, diverse and dedicated workforce, including by promoting: inclusive values and behaviours, health and wellbeing, training, development, continuous learning and improvement, attractive career opportunities, engagement, listening to concerns and speaking up, attractive remuneration and rewards, compassionate and effective leadership, excellent employee relations. <u>Risk to Strategic Objective:</u> The risk that the Trust does not have a workforce which is adequate (in terms of diversity, numbers, skills, skill mix, training, motivation, health or morale) to provide the levels and quality of care which the Trust needs to provide for its patients.
3.	To live within our means
3.1	To secure income which is adequate to deliver the quantity and quality of care which the Trust's patients require while also ensuring value for money for the public purse. To keep expenditure within the budget associated with that income and also ensuring value for money. To achieve these within the context of also achieving the same for the Humber Coast and Vale HCP. <u>Risk to Strategic Objective:</u> The risk that either the Trust or the Humber Coast and Vale HCP fail to achieve their financial objectives and responsibilities, thereby failing in their statutory duties and/or failing to deliver value for money for the public purse.
3.2	To secure adequate capital investment for the needs of the Trust and its patients. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to secure and deploy adequate major capital to redevelop its estate to make it fit for purpose for the coming decades.
4.	To work more collaboratively
4.	To work innovatively, flexibly and constructively with partners across health and social care in the Humber Coast and Vale Health Care Partnership (including at Place), and in neighbouring Integrated Care Systems, and to shape and transform local and regional care in line with the NHS Long Term Plan. <u>Risk to Strategic Objective:</u> The risk that the Trust is not a good partner and collaborator, which consequently undermines the Trust's or the healthcare systems collective delivery of: care to patients; the transformation of care in line with the NHS Long Term Plan; the use of resources; the development of the workforce; opportunities for local talent; reduction in health and other inequalities; opportunities to reshape acute care; opportunities to attract investment.
5.	To provide good leadership
5.	To ensure that the Trust has leadership at all levels with the skills, behaviours and capacity to fulfil its responsibilities to its patients, staff, and wider stakeholders to the highest standards possible. <u>Risk to Strategic Objective:</u> The risk that the leadership of the Trust (from top to bottom, in part or as a whole) will not be adequate to the tasks set out in its strategic objectives, and therefore that the Trust fails to deliver one or more of these strategic objectives

EPRR/COVID-19 Pandemic

Highlights

- Next step in covid surge plan wards identified should NLAG need to re-establish red wards at DPOWH and SGH
- Nationally delivered Tactical Health Commander training ongoing through October and November with training well attended
- NHSBT: Red cell shortage amber alert now ended as national stocks at improved levels – Post-incident report in progress by Blood Transfusion Team to identify as lessons to be learned
- National exercise Artic Willow to completed Nov/Dec looking at combination of potential risks over winter period – NLAG linked in through ICB Place

Lowlights

- National early preparations taking place for potential industrial action through NHSE with further dates released for strikes by NHS staff including Nursing, Support staff and ambulance staff.
- NHSE/ICB leading review of business continuity plans across country for energy shortages ahead of winter, however, current intelligence suggest highly unlikely to occur
- Ward closures have occurred due to covid and influenza during Dec – IPC Team working closely with wards to reduce risk of further closures
- Increase in paediatric acuity/demand due to seasonal respiratory presentations
- All restrictions lifted outside of Healthcare, restrictions beginning to be lifted within healthcare use of PPE now only within Clinical settings – **UPDATE: NLAG has now issued updated guidance on mask wearing expanding to include all clinical settings including OPD and all areas within the hospital**

Risks

- Potential of cyber attacks due to the unrest in Ukraine and sanctions imposed on Russia
- Increase in covid positives numbers could trigger the requirement for ‘red wards’ if numbers escalate and increase in number of influenza patients been admitted
- Potential risk to supply chains across all industries due to multiple pressures on manufacturing and logistics
- Potential risk of distribution to service delivery from industrial actions, both external (e.g. Royal Mail strikes) and internal (e.g. healthcare workers) during the coming months
- Reduction of the sterling pound causing concern within financial market and impacting on costs such as Electricity/Gas/Fuel

Risks	
<ul style="list-style-type: none"> Acuity of patients that are being seen in Resus and Majors Acuity of walk in patients Delays in progression of SDEC for Gynae / Surgery UCS not being 24/7 results in drop in 4 hour performance and increased pressure across the department between 2000-0800 Medical staffing for ED new builds – business case submitted with revised establishment required for safe staffing of new footprint Inability to staff extra shifts that have been agreed to support the current demand and acuity 	

Ambulance Handovers

Highlights

- QI project is being organised to focus on getting all ambulances into the department in under 45 Minutes

Lowlights

- Ambulance handovers are not being achieved

Risks

- Lack of patient flow through the system is resulting in exit block in ED for patients requiring admission delays in offloading patients from incoming ambulances
- Delayed ambulance handovers into ED results in reduced availability of ambulances to attend calls in the community and delayed patient care

- FEAST consultation concluded, pending implementation.
- Pilot of electronic referrals from NL SPA to SDEC started 7th November 2022. Process now embedded and working well. Working ongoing to trial with NEL
- Funding agreed for ward clerk provision. Recruitment process underway. Estimated start date of full rota coverage February 2023.
- Highest number of new patients seen in month through SDEC : 2004
- Percentage of Non Elective Admissions that did not stay overnight having IAAU intervention: November: **51.20%**, December MTD: **50.7%**
- Percentage of Non Elective Admissions discharged within 24 hours that had IAAU intervention: November: **54.3%**, December MTD: **53.4%**

- Virtual Ward start date at SGH 12/12/22. DPOW start date 09/01/23.
- Funding confirmed for nursing & medical staff up to 31st March 2023. Recruitment process underway

Lowlights

- High levels of vacancies exist within the Acute Medicine team while recruitment continues and we are awaiting appointed medical staff to start
- No applications received for Acute Consultant roles. Re-advertised and Talent Acquisition continue to support.
- Lack of office space and IT equipment for additional workforce
- Inconsistency of ward clerk cover causing delays with patient spells and leading to high volume of filing within department impacting clinical coding
- Under utilisation of EMAS direct to SDEC pathway with mix of pathway not used by EMAS crews and failed referrals into SDEC
- Ongoing delays with WebV launching integrated electronic discharge summary for SDEC.
- Work is still in progress on developing an IT systems integration solution for SDEC services and community (NHS111/GP/SPA)
- Lack of diagnostic capacity impacting on patient flow, particularly in SDEC
- Task & Finish Group to progress use of Symphony within SDEC paused pending data warehouse transfer

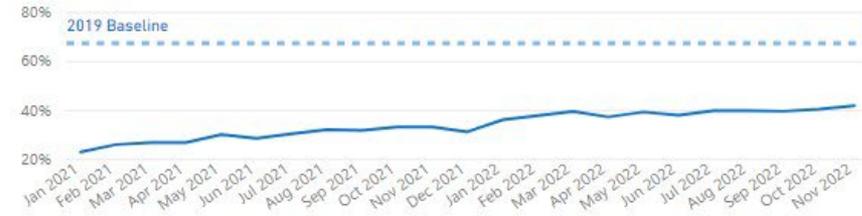

Risks

- Reliance on sufficient daily discharges to enable flow out of IAAU is required to prevent bottleneck between ED and IAAU
- A lack of sufficient specialty SDEC capacity impacts on the ED workforce, patient waits and crowding in ED
- High vacancy levels in the medical workforce with a risk of burnout for Consultant ACPs working a high number of hours every week
- Paused Symphony rollout could impact the national implementation of Type 5 ECDS data recording and also mean staff need retraining on two different systems

***Board Assurance Framework (BAF) Descriptions:**

1.	To give great care
1.1	To ensure the best possible experience for the patient, focussing always on what matters to the patient. To seek always to learn and to improve so that what is offered to patients gets better every year and matches the highest standards internationally. <u>Risk to Strategic Objective:</u> The risk that patients may suffer because the Trust fails to deliver treatment, care and support consistently at the highest standard (by national comparison) of safety, clinical effectiveness and patient experience.
1.2	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to deliver constitutional and other regulatory performance targets which has an adverse impact on patients in terms of timeliness of access to care and/or risk of clinical harm because of delays in access to care.
1.3	To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term. <u>Risk to Strategic Objective:</u> The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.
1.4	To offer care in estate and with engineering equipment which meets the highest modern standards. <u>Risk to Strategic Objective:</u> The risk that the Trust's estate, infrastructure and engineering equipment may be inadequate or at risk of becoming inadequate (through poor quality, safety, obsolescence, scarcity, backlog maintenance requirements or enforcement action) for the provision of high quality care and/or a safe and satisfactory environment for patients, staff and visitors.
1.5	To take full advantage of digital opportunities to ensure care is delivered as safely, effectively and efficiently as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's digital infrastructure (or the inadequacy of it) may adversely affect the quality, efficacy or efficiency of patient care and/or use of resources, and/or make the Trust vulnerable to data losses or data security breaches.
1.6	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's business continuity arrangements are not adequate to cope without damage to patient care with major external or unpredictable events (e.g. adverse weather, pandemic, data breaches, industrial action, major estate or equipment failure).
2.	To be a good employer
2.	To develop an organisational culture and working environment which attracts and motivates a skilled, diverse and dedicated workforce, including by promoting: inclusive values and behaviours, health and wellbeing, training, development, continuous learning and improvement, attractive career opportunities, engagement, listening to concerns and speaking up, attractive remuneration and rewards, compassionate and effective leadership, excellent employee relations. <u>Risk to Strategic Objective:</u> The risk that the Trust does not have a workforce which is adequate (in terms of diversity, numbers, skills, skill mix, training, motivation, health or morale) to provide the levels and quality of care which the Trust needs to provide for its patients.
3.	To live within our means
3.1	To secure income which is adequate to deliver the quantity and quality of care which the Trust's patients require while also ensuring value for money for the public purse. To keep expenditure within the budget associated with that income and also ensuring value for money. To achieve these within the context of also achieving the same for the Humber Coast and Vale HCP. <u>Risk to Strategic Objective:</u> The risk that either the Trust or the Humber Coast and Vale HCP fail to achieve their financial objectives and responsibilities, thereby failing in their statutory duties and/or failing to deliver value for money for the public purse.
3.2	To secure adequate capital investment for the needs of the Trust and its patients. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to secure and deploy adequate major capital to redevelop its estate to make it fit for purpose for the coming decades.
4.	To work more collaboratively
4.	To work innovatively, flexibly and constructively with partners across health and social care in the Humber Coast and Vale Health Care Partnership (including at Place), and in neighbouring Integrated Care Systems, and to shape and transform local and regional care in line with the NHS Long Term Plan. <u>Risk to Strategic Objective:</u> The risk that the Trust is not a good partner and collaborator, which consequently undermines the Trust's or the healthcare systems collective delivery of: care to patients; the transformation of care in line with the NHS Long Term Plan; the use of resources; the development of the workforce; opportunities for local talent; reduction in health and other inequalities; opportunities to reshape acute care; opportunities to attract investment.
5.	To provide good leadership
5.	To ensure that the Trust has leadership at all levels with the skills, behaviours and capacity to fulfil its responsibilities to its patients, staff, and wider stakeholders to the highest standards possible. <u>Risk to Strategic Objective:</u> The risk that the leadership of the Trust (from top to bottom, in part or as a whole) will not be adequate to the tasks set out in its strategic objectives, and therefore that the Trust fails to deliver one or more of these strategic objectives

Part 6 – Counting the votes

Note: the following rules describe how the votes are to be counted manually but it is expected that appropriately audited vote counting software will be used to count votes where a combination of methods of polling is being used and votes are contained as electronic e-voting records and ballot papers.

41. Single Transferable Vote (STV) - Interpretation of Part 6

In part 6 of these rules:

“ballot” means a ballot paper, internet voting record, telephone voting record or text voting record;

“continuing candidate” means any candidate not deemed to be elected, and not excluded;

“count” means all the operations involved in counting of the first preferences recorded for candidates, the transfer of the surpluses of elected candidates, and the transfer of the votes of the excluded candidates;

“deemed to be elected” means deemed to be elected for the purposes of counting of votes but without prejudice to the declaration of the result of the poll;

“mark” means a figure, an identifiable written word, or a mark such as “X”;

“non-transferable vote” means a ballot:

- (a) on which no second or subsequent preference is recorded for a continuing candidate; or,
- (b) which is excluded by the returning officer under rule 49 - STV below;

“preference” as used in the following contexts has the meaning assigned below:

- (a) “first preference” means the figure “1” or any mark or word which clearly indicates a first (or only) preference;
- (b) “next available preference” means a preference which is the second, or as the case may be, subsequent preference recorded in consecutive order for a continuing candidate (any candidate who is deemed to be elected or is excluded thereby being ignored); and,
- (c) in this context, a “second preference” is shown by the figure “2” or any mark or word which clearly indicates a second preference, and a third preference by the figure “3” or any mark or word which clearly indicates a third preference, and so on;

“quota” means the number calculated in accordance with rule 46 - STV below;

“surplus” means the number of votes by which the total number of votes for any candidate (whether first preference or transferred votes, or a combination of both) exceeds the quota; but references in these rules to the transfer of the surplus means the transfer (at a transfer value) of all transferable ballots from the candidate who has the surplus;

“stage of the count” means:

- (a) the determination of the first preference vote of each candidate;
- (b) the transfer of a surplus of a candidate deemed to be elected; or,
- (c) the exclusion of one or more candidates at any given time;

“transferable vote” means a ballot on which, following a first preference, a second or subsequent preference is recorded in consecutive numerical order for a continuing candidate;

“transferred vote” means a vote derived from a ballot on which a second or subsequent preference is recorded for the candidate to whom that ballot has been transferred; and,

“transfer value” means the value of a transferred vote calculated in accordance with rules 47.4 - STV or 47.7 - STV below

42. Arrangements for counting of the votes

- 42.1 The returning officer is to make arrangements for counting the votes as soon as is practicable after the close of the poll.

43. The count

43.1 The returning officer is to:

- (a) count and record the number of votes that have been returned; and,
- (b) count the votes according to the provisions in this Part of the rules.

43.2 The returning officer, while counting and recording the number of votes and counting the votes, must make arrangements to ensure that no person obtains or communicates information as to the unique identifier on a ballot paper or a voter's voter ID number.

43.3 The returning officer is to proceed continuously with counting the votes as far as is practicable.

44. STV - Rejected ballot papers

44.1 STV - Any ballot paper:

- (a) which does not bear the features that have been incorporated into the other ballot papers to prevent them from being reproduced;
- (b) on which the figure "1" standing alone is not placed so as to indicate a first preference for any candidate;
- (c) on which anything is written or marked by which the voter can be identified except the unique identifier; or,
- (d) which is unmarked or rejected because of uncertainty;

shall be rejected and not counted, but the ballot paper shall not be rejected by reason only of carrying the words "one", "two", "three" and so on, or any other mark instead of a figure if, in the opinion of the returning officer, the word or mark clearly indicates a preference or preferences.

44.2 STV – The returning officer is to endorse the word "rejected" on any ballot paper which under this rule is not to be counted.

44.3 STV - The returning officer is to draw up a statement showing the number of ballot papers rejected by him or her under each of the subparagraphs (a) to (d) of rule 44.1 - STV

44. First Past the Post (FPP) - Rejected ballot papers

44.1 Any ballot paper:

- (a) which does not bear the features that have been incorporated into the other ballot papers to prevent them from being reproduced;

- (b) on which votes are given for more candidates than the voter is entitled to vote;
- (b) on which anything is written or marked by which the voter can be identified except the unique identifier; or,
- (c) which is unmarked or rejected because of uncertainty;

shall, subject to rules 44.2- FPP and 44.3 - FPP, be rejected and not counted.

44.2 FPP - Where the voter is entitled to vote for more than one candidate, a ballot paper is not to be rejected because of uncertainty in respect of any vote where no uncertainty arises, and that vote is to be counted.

44.3 FPP - A ballot paper on which a vote is marked:

- (a) elsewhere than in the proper place;
- (b) otherwise than by means of a clear mark;
- (c) by more than one mark;

is not to be rejected for such reason (either wholly or in respect of that vote) if an intention that the vote shall be for one or other of the candidates clearly appears, and the way the paper is marked does not itself identify the voter and it is not shown that he or she can be identified by it.

44.4 FPP - The returning officer is to:

- (a) endorse the word "rejected" on any ballot paper which under this rule is not to be counted; and
- (b) in the case of a ballot paper on which any vote is counted under rules 44.2 - FPP and 44.3 - FPP, endorse the words "rejected in part" on the ballot paper and indicate which vote or votes have been counted.

44.5 FPP - The returning officer is to draw up a statement showing the number of rejected ballot papers under the following headings:

- (a) does not bear proper features that have been incorporated into the ballot paper,
- (b) voting for more candidates than the voter is entitled to;
- (c) writing or mark by which voter could be identified; and,
- (d) unmarked or rejected because of uncertainty;

and, where applicable, each heading must record the number of ballot papers rejected in part.

45. STV - First stage

- 45.1 STV - The returning officer is to sort the ballots into parcels according to the candidates for whom the first preference votes are given.
- 45.2 STV - The returning officer is to then count the number of first preference votes given on ballots for each candidate, and is to record those numbers.
- 45.3 STV - The returning officer is to also ascertain and record the number of valid ballots.

46. STV - The quota

- 46.1 STV - The returning officer is to divide the number of valid ballots by a number exceeding by one the number of members to be elected.
- 46.2 STV - The result, increased by one, of the division under rule 46.1 - STV (any fraction being disregarded) shall be the number of votes sufficient to secure the election of a candidate (in these rules referred to as "the quota").
- 46.3 STV - At any stage of the count a candidate whose total votes equals or exceeds the quota shall be deemed to be elected, except that any election where there is only one vacancy a candidate shall not be deemed to be elected until the procedure set out in rules 47.1 - STV to 47.3 - STV has been complied with.

47. STV - Transfer of votes

- 47.1 STV - Where the number of first preference votes for any candidate exceeds the quota, the returning officer is to sort all the ballots on which first preference votes are given for that candidate into sub- parcels so that they are grouped:
- (a) according to next available preference given on those ballots for any continuing candidate; or,
 - (b) where no such preference is given, as the sub-parcel of non-transferable votes.
- 47.2 STV - The returning officer is to count the number of ballots in each parcel referred to in rule.
- 47.3 STV - The returning officer is, in accordance with this rule and rule 48 - STV, to transfer each sub-parcel of ballots referred to in rule 47.1(a) - STV to the candidate for whom the next available preference is given on those papers.

- 47.4 STV - The vote on each ballot transferred under rule 47.3 - STV shall be at a value ("the transfer value") which:
- (a) reduces the value of each vote transferred so that the total value of all such votes does not exceed the surplus; and,
 - (b) is calculated by dividing the surplus of the candidate from whom the votes are being transferred by the total number of the ballots on which those votes are given, the calculation being made to two decimal places (ignoring the remainder if any).
- 47.5 STV - Where at the end of any stage of the count involving the transfer of ballots, the number of votes for any candidate exceeds the quota, the returning officer is to sort the ballots in the sub-parcel of transferred votes which was last received by that candidate into separate sub-parcels so that they are grouped:
- (a) according to the next available preference given on those ballots for any continuing candidate; or,
 - (b) where no such preference is given, as the sub-parcel of non-transferable votes.
- 47.6 STV - The returning officer is, in accordance with this rule and rule 48 - STV, to transfer each sub-parcel of ballots referred to in rule 47.5(a) - STV to the candidate for whom the next available preference is given on those ballots.
- 47.7 STV - The vote on each ballot transferred under rule 47.6 - STV shall be at:
- (a) a transfer value calculated as set out in rule 47.4(b) - STV; or,
 - (b) at the value at which that vote was received by the candidate from whom it is now being transferred, whichever is the less.
- 47.8 STV - Each transfer of a surplus constitutes a stage in the count.
- 47.9 STV - Subject to rule 47.10 - STV, the returning officer shall proceed to transfer transferable ballots until no candidate who is deemed to be elected has a surplus or all the vacancies have been filled.
- 47.10 STV - Transferable ballots shall not be liable to be transferred where any surplus or surpluses which, at a particular stage of the count, have not already been transferred, are:
- (a) less than the difference between the total vote then credited to the continuing candidate with the lowest recorded vote and the vote of the candidate with the next lowest recorded vote; or,

- (b) less than the difference between the total votes of the two or more continuing candidates, credited at that stage of the count with the lowest recorded total numbers of votes and the candidate next above such candidates.

47.11 STV - This rule does not apply at an election where there is only one vacancy.

48. STV - Supplementary provisions on transfer

48.1 STV - If, at any stage of the count, two or more candidates have surpluses, the transferable ballots of the candidate with the highest surplus shall be transferred first, and if:

- (a) The surpluses determined in respect of two or more candidates are equal, the transferable ballots of the candidate who had the highest recorded vote at the earliest preceding stage at which they had unequal votes shall be transferred first; and,
- (b) the votes credited to two or more candidates were equal at all stages of the count, the returning officer shall decide between those candidates by lot, and the transferable ballots of the candidate on whom the lot falls shall be transferred first.

48.2 STV - The returning officer shall, on each transfer of transferable ballots under rule 47 - STV:

- (a) record the total value of the votes transferred to each candidate;
- (b) add that value to the previous total of votes recorded for each candidate and record the new total;
- (c) record as non-transferable votes the difference between the surplus and the total transfer value of the transferred votes and add that difference to the previously recorded total of non-transferable votes; and,
- (d) compare:
 - (i) the total number of votes then recorded for all of the candidates, together with the total number of non-transferable votes; with,
 - (ii) the recorded total of valid first preference votes.

48.3 STV - All ballots transferred under rule 47 - STV or 48 - STV shall be clearly marked, either individually or as a sub-parcel, so as to indicate the transfer value recorded at that time to each vote on that ballot or, as the case may be, all the ballots in that sub-parcel.

48.4 STV - Where a ballot is so marked that it is unclear to the returning officer at any stage of the count under rule 47 - STV or 48 - STV for which candidate the next preference is recorded, the returning officer shall treat any vote on that ballot as a non-transferable vote; and votes on a ballot shall be so treated

where, for example, the names of two or more candidates (whether continuing candidates or not) are so marked that, in the opinion of the returning officer, the same order of preference is indicated or the numerical sequence is broken.

49. STV - Exclusion of candidates

49.1 STV - If:

- (a) all transferable ballots which under the provisions of rule 47 – STV (including that rule as applied by rule 49.11 - STV and this rule are required to be transferred, have been transferred; and,
- (b) subject to rule 50 - STV, one or more vacancies remain to be filled;

the returning officer shall exclude from the election at that stage the candidate with the then lowest vote (or, where rule 49.12 - STV applies, the candidates with the then lowest votes).

49.2 STV - The returning officer shall sort all the ballots on which first preference votes are given for the candidate or candidates excluded under rule 49.1 - STV into two sub-parcels so that they are grouped as:

- (a) ballots on which a next available preference is given; and,
- (b) ballots on which no such preference is given (thereby including ballots on which preferences are given only for candidates who are deemed to be elected or are excluded).

49.3 STV - The returning officer shall, in accordance with this rule and rule 48 - STV, transfer each sub-parcel of ballots referred to in rule 49.2 - STV to the candidate for whom the next available preference is given on those ballots.

49.4 STV - The exclusion of a candidate, or of two or more candidates together, constitutes a further stage of the count.

49.5 STV - If, subject to rule 50 - STV, one or more vacancies still remain to be filled, the returning officer shall then sort the transferable ballots, if any, which had been transferred to any candidate excluded under rule 49.1 - STV into sub- parcels according to their transfer value.

49.6 STV - The returning officer shall transfer those ballots in the sub-parcel of transferable ballots with the highest transfer value to the continuing candidates in accordance with the next available preferences given on those ballots (thereby passing over candidates who are deemed to be elected or are excluded).

- 49.7 STV - The vote on each transferable ballot transferred under rule STV49.6 shall be at the value at which that vote was received by the candidate excluded under rule STV49.1.
- 49.8 STV - Any ballots on which no next available preferences have been expressed shall be set aside as non-transferable votes.
- 49.9 STV - After the returning officer has completed the transfer of the ballots in the sub-parcel of ballots with the highest transfer value he or she shall proceed to transfer in the same way the sub-parcel of ballots with the next highest value and so on until he has dealt with each sub-parcel of a candidate excluded under rule STV49.1.
- 49.10 STV - The returning officer shall after each stage of the count completed under this rule:
- (a) record:
 - (i) the total value of votes; or,
 - (ii) the total transfer value of votes transferred to each candidate;
 - (b) add that total to the previous total of votes recorded for each candidate and record the new total;
 - (c) record the value of non-transferable votes and add that value to the previous non-transferable votes total; and,
 - (d) compare:
 - (i) the total number of votes then recorded for each candidate together with the total number of non-transferable votes; with,
 - (ii) the recorded total of valid first preference votes.
- 49.11 STV - If after a transfer of votes under any provision of this rule, a candidate has a surplus, that surplus shall be dealt with in accordance with rules 47.5 - STV 47.10 - STV and rule 48 - STV.
- 49.12 STV - Where the total of the votes of the two or more lowest candidates, together with any surpluses not transferred, is less than the number of votes credited to the next lowest candidate, the returning officer shall in one operation exclude such two or more candidates.
- 49.13 STV - If when a candidate has to be excluded under this rule, two or more candidates each have the same number of votes and are lowest:
- (a) regard shall be had to the total number of votes credited to those candidates at the earliest stage of the count at which they had an unequal number of votes and the candidate with the lowest number of votes at that stage shall be excluded; and,

(b) where the number of votes credited to those candidates was equal at all stages, the returning officer shall decide between the candidates by lot and the candidate on whom the lot falls shall be excluded.

50. STV - Filling of last vacancies

- 50.1 STV - Where the number of continuing candidates is equal to the number of vacancies remaining unfilled the continuing candidates shall thereupon be deemed to be elected.
- 50.2 STV - Where only one vacancy remains unfilled and the votes of any one continuing candidate are equal to or greater than the total of votes credited to other continuing candidates together with any surplus not transferred, the candidate shall thereupon be deemed to be elected.
- 50.3 STV - Where the last vacancies can be filled under this rule, no further transfer of votes shall be made.

51. STV - Order of election of candidates

- 51.1 STV - The order in which candidates whose votes equal or exceed the quota are deemed to be elected shall be the order in which their respective surpluses were transferred, or would have been transferred but for rule 47.10 - STV.
- 51.2 STV - A candidate credited with a number of votes equal to, and not greater than, the quota shall, for the purposes of this rule, be regarded as having had the smallest surplus at the stage of the count at which he obtained the quota.
- 51.3 STV - Where the surpluses of two or more candidates are equal and are not required to be transferred, regard shall be had to the total number of votes credited to such candidates at the earliest stage of the count at which they had an unequal number of votes and the surplus of the candidate who had the greatest number of votes at that stage shall be deemed to be the largest.
- 51.4 STV - Where the number of votes credited to two or more candidates were equal at all stages of the count, the returning officer shall decide between them by lot and the candidate on whom the lot falls shall be deemed to have been elected first.

51. FPP - Equality of votes

- 51.1 FPP - Where, after the counting of votes is completed, an equality of votes is found to exist between any candidates and the addition of a vote would entitle any of those candidates to be declared elected, the returning officer is to

decide between those candidates by a lot, and proceed as if the candidate on whom the lot falls had received an additional vote.

Part 7 – Final proceedings in contested and uncontested elections

52. STV - Declaration of result for contested elections

52.1 STV - In a contested election, when the result of the poll has been ascertained, the returning officer is to:

- (a) declare the candidates who are deemed to be elected under Part 6 of these rules as elected;
- (b) give notice of the name of each candidate who they have declared elected:

- (i) where the election is held under a proposed Constitution pursuant to powers conferred on the Northern Lincolnshire and Goole Foundation NHS Trust by section 33(4) of the 2006 Act, to the Chair of the NHS Trust; or,

- (b) the total number of votes for each candidate at each stage of the count at which such transfer took place;
- (d) the order in which the successful candidates were elected; and,
- (e) the number of rejected ballot papers under each of the headings in rule STV- 44.1, available on request.

52. FPP - Declaration of result for contested elections

52.1 FPP - In a contested election, when the result of the poll has been ascertained, the returning officer is to:

- (b) give notice of the name of each candidate who they have declared elected:
 - (i) where the election is held under a proposed constitution pursuant to powers conferred on the Northern Lincolnshire and Goole Foundation NHS Trust by section 33(4) of the 2006 Act, to the Chair of the NHS Trust, or
 - (ii) in any other case, to the Chair of the corporation; and,
- (b) give public notice of the name of each candidate whom they have declared elected.

52.2 FPP - The returning officer is to make:

- (b) the number of rejected ballot papers under each of the headings in rule 44.5 - FPP, available on request.

53. Declaration of result for uncontested elections

 - (d) the constituency, or class within a constituency, to which the election relates.

55. Delivery of documents

- 55.1 Once the documents relating to the poll have been sealed up and endorsed pursuant to rule 54, the returning officer is to forward them to the chair of the corporation.

56. Forwarding of documents received after close of the poll

- 56.1 Where:
- (a) any voting documents are received by the returning officer after the close of the poll; or,
 - (b) any envelopes addressed to eligible voters are returned as undelivered too late to be resent; or,
 - (c) any applications for replacement voter information is made too late to enable new ballot papers to be issued.

The returning officer is to put them in a separate packet, seal it up, and endorse and forward it to the Chair of the corporation.

57. Retention and public inspection of documents

- 57.1 The corporation is to retain the documents relating to an election that are forwarded to the chair by the returning officer under these rules for one year,

and then, unless otherwise directed by the regulator, cause them to be destroyed.

57.2 With the exception of the documents listed in rule 58.1, the documents relating to an election that are held by the corporation shall be available for inspection by members of the public at all reasonable times.

57.3 A person may request a copy or extract from the documents relating to an election that are held by the corporation, and the corporation is to provide it, and may impose a reasonable charge for doing so.

58. Application for inspection of certain documents relating to an election

58.1 The corporation may not allow the inspection of, or the opening of any sealed packet containing:

- (ii) that the regulator has declared that the vote was invalid.

Part 9 – Death of a candidate during a contested election

59. STV - Countermand or abandonment of poll on death of candidate

59.1 STV - If, at a contested election, proof is given to the returning officer's satisfaction before the result of the election is declared that one of the persons named or to be named as a candidate has died, then the returning officer is to:

- (a) publish a notice stating that the candidate has died; and,
- (b) proceed with the counting of the votes as if that candidate had been excluded from the count so that:
 - (i) ballots which only have a first preference recorded for the candidate that has died, and no preferences for any other candidates, are not to be counted; and,
 - (ii) ballots which have preferences recorded for other candidates are to be counted according to the consecutive order of those preferences, passing over preferences marked for the candidate who has died.

59.2 STV - The ballots which have preferences recorded for the candidate who has died are to be sealed with the other counted ballots pursuant to rule 54.1(a).

59. FPP - Countermand or abandonment of poll on death of candidate

59.1 FPP - If at a contested election, proof is given to the returning officer's satisfaction before the result of the election is declared that one of the persons named or to be named as a candidate has died, then the returning officer is to:

59.2 FPP - Where a new election is ordered under rule 59.1 - FPP, no fresh nomination is necessary for any candidate who was validly nominated for the

election where the poll was countermanded or abandoned but further candidates shall be invited for that constituency or class.

 - (c) the name of the corporation to which the election relates; and,
 - (d) the constituency, or class within a constituency, to which the election relates.
- 59.7 FPP - Once the documents relating to the poll have been sealed up and endorsed pursuant to rules 59.4 - FPP to 59.6 - FPP, the returning officer is to deliver them to the Chair of the corporation, and rules 57 and 58 are to apply.

Part 10 – Election expenses and publicity

60. Election expenses

- 60.1 Any expenses incurred, or payments made, for the purposes of an election which contravene this Part are an electoral irregularity, which may only be questioned in an application to the regulator under Part 11 of these rules.

61. Expenses and payments by candidates

- 61.1 A candidate may not incur any expenses or make a payment (of whatever nature) for the purposes of an election, other than expenses or payments that relate to

- (a) personal expenses;
- (b) travelling expenses, and expenses incurred while living away from home; and,

63. Publicity about election by the corporation

63.1 The corporation may:

- (a) compile and distribute such information about the candidates; and,

4. Code of Conduct for the Council of Governors and the Nolan Principles

4.1. Introduction

- 4.1.1. This code seeks to outline appropriate conduct for governors, and addresses both the requirements of office and their personal behaviour. Ideally any penalties for non-compliance would never need to be applied. However, a code is considered an essential guide for governors, particularly those who are newly elected.
- 4.1.2. The code seeks to expand on or complement the Constitution. Copies will be made available for the information of all governors and for those considering seeking election to the trust's Council of Governors.

4.1.3. Members seeking election to the Council of Governors should sign a declaration to confirm that they will comply with the code in all respects and that, in particular, they support the trust's objectives.

4.2. Qualifications for Office

4.2.1. Members of the Council of Governors must continue to comply with the qualifications required to hold elected office throughout their period of tenure as defined in the Constitution. The Chair should be advised of any changes in circumstances, which disqualify the governor from continuing in office. An example of this would be a public governor becoming an employee of the trust.

4.3. Code of Conduct Role and Functions

4.3.1. In addition to their duties set out in the Constitution, and specifically in relation to matters of conduct, governors should:

4.3.1.1. adhere to the trust's rules and policies and support its objectives, in particular those of retaining foundation status and developing a successful organisation;

4.3.1.2. act in the best interests of the trust at all times;

4.3.1.3. contribute to the workings of the Council of Governors in order for it to fulfil its role and functions as defined in the Constitution;

4.3.1.4. recognise that their role is a collective one. They exercise collective decision making in the meeting room, which is recorded in the minutes. Outside the meeting room a governor has no more rights and privileges than any other member;

4.3.1.5. note that the functions allotted to the Council of Governors are not of a managerial nature.

4.4. Confidentiality

4.4.1. All governors are required to respect the confidentiality of the information they are made privy to as a result of their membership of the Council of Governors.

4.5. Conflict of Interests

4.5.1. Governors should act with the utmost integrity and objectivity and in the best interests of the trust in performing their duties. They should not use their position for personal advantage or seek to gain preferential treatment. Any governor who has a material interest in a matter as defined by the Constitution, shall declare such interest to the Council of Governors and:

- shall not vote on any such matters;
- shall not be present except with the permission of the Council of Governors in any discussion of the matter.

4.5.2. If in any doubt the governor should seek advice from the Chair and / or Trust Secretary. It is important that conflicts of interest are addressed and are seen to be actioned in the interests of the trust and all individuals concerned.

4.5.3. Any governor who fails to disclose any interest required to be disclosed under the preceding paragraph must permanently vacate their office if required to do so by a majority of the remaining governors.

4.5.4. The Register of Governors Interests will feature as a standing item on the agenda of each meeting of the Council of Governors.

4.6. Council of Governors Meetings

4.6.1. Governors have a responsibility to attend meetings of the Council of Governors. When this is not possible they should submit an apology to the Chair's office in advance of the meeting stating the reason for non-attendance. The reason for non-attendance will be recorded in the minutes of the meeting.

4.6.2. In accordance with the Constitution, absence from the Council of Governor meetings without good reason established to the satisfaction of the Council of Governors is grounds for disqualification. If a governor fails to attend half of the meetings of the Council of Governors in any financial year his or her tenure of office is to be immediately terminated unless the other governors are satisfied that the absence was due to a reasonable cause and he or she will be able to start attending meetings of the trust again within such a period as they consider reasonable.

4.6.3. Governors are expected to attend for the duration of the meeting.

4.7. Personal Conduct

4.7.1. Governors are required to adhere to the highest standards of conduct in the performance of their duties. In respect of their interaction with others, they are required to:

4.7.1.1. adhere to good practice in respect of the conduct of meetings and respect the views of their fellow elected members;

4.7.1.2. be mindful of conduct which could be deemed to be unfair or discriminatory;

- 4.7.1.3.** treat the trust's executives and other employees with respect and in accordance with the trust's policy in this respect;
- 4.7.1.4.** recognise that the Council of Governors and management have a common purpose, i.e. the success of the trust and adopt a team approach;
- 4.7.1.5.** conduct themselves in such a manner as to reflect positively on the trust. When attending external meetings or any other events at which they are present, it is important for governors to be ambassadors for the trust.

4.8. Accountability

- 4.8.1.** Governors are accountable to the membership and should demonstrate this by attending members' meetings and other key events, which provide opportunities to interface with their electorate in order to understand their views.

4.9. Induction and Development

- 4.9.1.** Training is essential for governors, in respect of the effective performance of their current role. Governors are required to adhere to the trust's policy in all respects.

4.10. Visits to Trust Premises

- 4.10.1.** Where governors wish to visit the premises of the trust in a formal capacity as opposed to individuals in a personal capacity, the Council of Governors should liaise with the Membership Office to make the necessary arrangements.

4.11. Non-Compliance with the Code of Conduct

- 4.11.1.** Non-compliance with the code may result in action being taken as follows:
- Where misconduct takes place, the Chair shall be authorised to take such action as may be immediately required, including the exclusion of the person concerned from a meeting.
 - Where such misconduct is alleged, it shall be open to the Council of Governors to decide, by simple majority of those in attendance, to lay a formal charge of misconduct:
 - notifying the governor in writing of the charge/s, detailing the specific behaviour, which is considered to be detrimental to the trust, and inviting and considering their response within a defined timescale.

- inviting the governor to address the Council of Governors in person if the matter cannot be resolved satisfactorily through correspondence;
 - deciding, by simple majority of those present and voting, whether to uphold the charge of conduct detrimental to the trust;
 - imposing such sanctions as shall be deemed appropriate. Such sanctions will range from the issuing of a written warning as to the member's future conduct and consequences, non-payment of expenses to the removal of the governor from office.
- 4.11.2.** A governor may be removed from the Council of Governors by a resolution approved by not less than two-thirds of the remaining governors present and voting at a general meeting of the Council of Governors.
- 4.11.3.** This code of conduct does not limit or invalidate the right of the governor or the trust to act under the Constitution.

4.12. Nolan Principles – the seven principles of public life

- 4.12.1.** Governors should act in accordance with the Nolan Principles, namely:

Selflessness: Holders of public office should take decisions solely in terms of the public interest. They should not do so to gain financial or other material benefit for themselves, their family or their friends.

Integrity: Holders of public office should not place themselves under any financial or other obligation to outside individuals or organisations that might influence them in the performance of their official duties.

Objectivity: In carrying out public business, including making public appointments, awarding contracts or recommending individuals for rewards and benefits, holders of public office should make choice on merit.

Accountability: Holders of public office are accountable for their decisions and actions to the public and must submit themselves to whatever scrutiny is appropriate to their office.

Openness: Holders of public office should be as open as possible about all the decisions and actions they take. They should give reasons for their decisions and restrict information only when the wider public interest clearly demands.

Honesty: Holders of public office have a duty to declare any private interests relating to their public duties and to take steps to resolve any conflicts arising in a way that protects the public interest.

Leadership: Holders of public office should promote and support these principles by leadership and example.

- 6.3.5** Failure to serve such a notice on more than two directors will invalidate the meeting. A notice shall be presumed to have been served at the time at which the notice would be delivered in the ordinary course of the post.

6.4 Notice of Agenda Items

- 6.4.1** The Trust may determine that certain matters shall appear on every agenda for a meeting of the Trust Board and shall be addressed prior to any other business being conducted, which will have effect as though incorporated into the Standing Orders.
- 6.4.2** A director wishing to propose an agenda item or motion should send written notice eight clear days before the meeting to the Chair who shall insert the item or motion in the agenda for the meeting. Requests made less than eight days before a meeting may be included on the agenda at the discretion of the Chair.
- 6.4.3** Notwithstanding the intent of the previous paragraph urgent business may be raised at a meeting of the board provided the director wishing to raise such business has given notice to the Chair not later than the day preceding the meeting or in exceptional circumstances not later than one hour before the meeting. In either case, the Chair (or in their absence the Vice Chair) shall determine in consultation with the Chief Executive, the urgency of the proposed business and whether it should be discussed, deferred to the next meeting, or dealt with by the Chief Executive.

6.6.6 The mover of a motion shall have a right of reply at the close of any discussion on the motion or any amendment thereto.

6.7 Chair's Ruling

In this interpretation they shall be advised by the Chief Executive and in the case of Standing Financial Instructions by the Chief Financial Officer.

6.8.2 All questions put to the vote shall, at the discretion of the Chair of the meeting, be determined by oral expression or by a show of hands. A paper ballot may also be used if a majority of the directors present so request.

6.8.3 If at least one-third of the directors' present so request, the voting (other than by paper ballot) on any question may be recorded to show how each director present voted or abstained.

6.8.4 If a director so requests, their vote shall be recorded by name upon any vote (other than by paper ballot).

6.8.5 In no circumstances may an absent director vote by proxy. Absence is defined as being absent at the time of the vote.

- 6.8.8** A resolution in electronic form sent to all of the directors entitled to receive notice of a meeting of the board of directors by electronic communication (for the purposes of this provision “electronic communication” means a communication transmitted (whether from one person to another, from one device to another or from a person to a device or vice versa) (a) by means of an electronic communications network; or (b) by other means but while in an electronic form) to the electronic addresses notified to the Trust by each of the directors, shall be as valid and effectual as if it had been passed at a meeting of the Trust Board duly convened and held provided that each and every director entitled to receive a notice of a meeting of the Trust Board responds by electronic communication to the electronic address from which the resolution in electronic form was transmitted from, confirming their acceptance of the resolution.
- 6.8.9** An acting director who has been appointed formally by the appropriate appointments committee in accordance with the Constitution to carry out a vacant director’s duties during a period of temporary incapacity, shall be entitled to exercise the voting rights of the director.

6.10.3 If a director has been disqualified from participating in the discussion on any matter and/or from voting on any resolution by reason of the declaration of a conflict of interest (see Standing Orders 10 and 11) they shall no longer count towards the quorum. If a quorum is then not available for the discussion and/or the passing of a resolution on any matter, that matter may not be discussed further or voted upon at that meeting. Such a position shall be recorded in the minutes of the meeting. The meeting must then proceed to the next business. The above requirement for at least three executive directors to form part of the quorum shall not apply where the executive directors are excluded from a meeting (for example when the board considers the recommendations of the Remuneration and Terms of Service Committee).

6.10.4 Directors can participate in meetings by telephone or through the use of video conferencing facilities, where such facilities are available. Participation in a meeting through any of these methods shall be deemed to constitute presence in person at the meeting.

The Chief Executive shall determine which functions they will perform personally and shall nominate officers to undertake the remaining functions for which they will still retain accountability to the Trust Board.

8.5.2 The Chief Executive shall prepare a Scheme of Delegation identifying their proposals which shall be considered for approval by the Trust Board, subject to any amendment agreed during the discussion. The Chief Executive may periodically propose amendment to the Scheme of Delegation which shall be considered for approval by the Trust Board as indicated above.

***Board Assurance Framework (BAF) Descriptions:**

1.	To give great care
1.1	To ensure the best possible experience for the patient, focussing always on what matters to the patient. To seek always to learn and to improve so that what is offered to patients gets better every year and matches the highest standards internationally. <u>Risk to Strategic Objective:</u> The risk that patients may suffer because the Trust fails to deliver treatment, care and support consistently at the highest standard (by international comparison) of safety, clinical effectiveness and patient experience.
1.2	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to deliver constitutional and other regulatory performance targets which has an adverse impact on patients in terms of timeliness of access to care and/or risk of clinical harm because of delays in access to care.
1.3	To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term. <u>Risk to Strategic Objective:</u> The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.
1.4	To offer care in estate and with engineering equipment which meets the highest modern standards. <u>Risk to Strategic Objective:</u> The risk that the Trust's estate, infrastructure and engineering equipment may be inadequate or at risk of becoming inadequate (through poor quality, safety, obsolescence, scarcity, backlog maintenance requirements or enforcement action) for the provision of high quality care and/or a safe and satisfactory environment for patients, staff and visitors.
1.5	To take full advantage of digital opportunities to ensure care is delivered as safely, effectively and efficiently as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's digital infrastructure (or the inadequacy of it) may adversely affect the quality, efficacy or efficiency of patient care and/or use of resources, and/or make the Trust vulnerable to data losses or data security breaches.
1.6	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's business continuity arrangements are not adequate to cope without damage to patient care with major external or unpredictable events (e.g. adverse weather, pandemic, data breaches, industrial action, major estate or equipment failure).
2.	To be a good employer
2.	To develop an organisational culture and working environment which attracts and motivates a skilled, diverse and dedicated workforce, including by promoting: inclusive values and behaviours, health and wellbeing, training, development, continuous learning and improvement, attractive career opportunities, engagement, listening to concerns and speaking up, attractive remuneration and rewards, compassionate and effective leadership, excellent employee relations. <u>Risk to Strategic Objective:</u> The risk that the Trust does not have a workforce which is adequate (in terms of diversity, numbers, skills, skill mix, training, motivation, health or morale) to provide the levels and quality of care which the Trust needs to provide for its patients.
3.	To live within our means
3.1	To secure income which is adequate to deliver the quantity and quality of care which the Trust's patients require while also ensuring value for money for the public purse. To keep expenditure within the budget associated with that income and also ensuring value for money. To achieve these within the context of also achieving the same for the Humber Coast and Vale HCP. <u>Risk to Strategic Objective:</u> The risk that either the Trust or the Humber Coast and Vale HCP fail to achieve their financial objectives and responsibilities, thereby failing in their statutory duties and/or failing to deliver value for money for the public purse.
3.2	To secure adequate capital investment for the needs of the Trust and its patients. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to secure and deploy adequate major capital to redevelop its estate to make it fit for purpose for the coming decades.
4.	To work more collaboratively
4.	To work innovatively, flexibly and constructively with partners across health and social care in the Humber Coast and Vale Health Care Partnership (including at Place), and in neighbouring Integrated Care Systems, and to shape and transform local and regional care in line with the NHS Long Term Plan. <u>Risk to Strategic Objective:</u> The risk that the Trust is not a good partner and collaborator, which consequently undermines the Trust's or the healthcare systems collective delivery of: care to patients; the transformation of care in line with the NHS Long Term Plan; the use of resources; the development of the workforce; opportunities for local talent; reduction in health and other inequalities; opportunities to reshape acute care; opportunities to attract investment.
5.	To provide good leadership
5.	To ensure that the Trust has leadership at all levels with the skills, behaviours and capacity to fulfil its responsibilities to its patients, staff, and wider stakeholders to the highest standards possible. <u>Risk to Strategic Objective:</u> The risk that the leadership of the Trust (from top to bottom, in part or as a whole) will not be adequate to the tasks set out in its strategic objectives, and therefore that the Trust fails to deliver one or more of these strategic objectives

Northern Lincolnshire and Goole NHS Foundation Trust actively seeks to promote equality of opportunity. The Trust seeks to ensure that no employee, service user, or member of the public is unlawfully discriminated against for any reason, including the “protected characteristics” as defined in the Equality Act 2010. These principles will be expected to be upheld by all who act on behalf of the Trust, with respect to all aspects of Equality.

1.0 Introduction & Purpose

- 1.1** The role of the Governor Assurance Group (GAG) is to have oversight of areas of Trust governance and assurance frameworks in order to provide added levels of assurance to the work of the Council of Governors (CoG).
- 1.2** The Group will work closely with the Trust Board's Assurance Committees, sharing findings, concerns and requests for additional information with the committee chair and vice-chair, monitoring the progress of resolution and provision of assurance by the Trust Board relating to these areas, and reporting progress to the CoG.
- 1.3** As a Foundation Trust, the CoG is responsible for regularly feeding back information about the Trust, its vision and performance to the constituencies/classes and stakeholder organisations. The GAG provides a mechanism through which the CoG can seek assurance on this key matter for staff and public members.
- 1.4** The group will monitor the effectiveness of the Membership Strategy which incorporates oversight and scrutiny of the Trust's engagement with patients and carers. It will undertake this role on behalf of the CoG, whilst being mindful of the national, regional and local service transformation agenda.
- 1.5** One of the Trust's key goals is to create a supportive, developmental and listening environment for its staff so they are able to excel and contribute to the success of the organisation. The GAG will monitor and assist as appropriate in staff engagement, recruitment and retention and staff morale.

2.0 Authority

- 2.1** The GAG will have delegated authority on behalf of the CoG to consider and progress specific agenda items, as directed, and report back to the full Council as required.
- 2.2** The Group will share information and work closely with the Chair/Vice-chair of the Trust Board assurance committees but will have the authority to request information from Non-Executive and Executive Directors, in seeking assurance around areas of concern or areas where further clarification is required by Governors. This may include issues around quality, finance, performance, strategic development or staffing.
- 2.3** The Group will have the authority to ask relevant members of the Trust's staff, specifically, Executive Directors and / or their Deputies; to attend meetings of the Group and provide such information or assurance as may be required to enable the Group to fulfil its role.
- 2.4** The Group will meet six times per year and have the authority to hold extraordinary meetings as the Group deems appropriate.

3.0 Accountability & Reporting Arrangements

- 3.1** The group is directly accountable to the full CoG and the Chair of the GAG will submit a brief Highlight Report to each quarterly CoG Business meeting.
- 3.2** All meetings of the Group will be minuted by the Assistant Trust Secretary's staff.
- 3.3** The Group will maintain close working relationships with the Trust Board Assurance Committees so that any concerns and/or assurance can be addressed.

4.0 Responsibilities

4.1 General

- 4.1.1** The Group will nominate a public or staff Governor from the Group to attend each of the Trust Board Assurance Committee meetings in an observer capacity, together with a deputy for the nominated attendee.
- 4.1.2** The Group will provide input to the process of determination of the Trust's quality priorities and contribute to the identification and development of quality and safety measures to be included within the Trust's Integrated Performance Report and annual Quality Account.
- 4.1.3** On behalf of the CoG each year, the Group will select a local quality indicator for scrutiny by the Trust's appointed external auditors as part of the annual Quality Account audit process.
- 4.1.4** Provide support to the CoG with regards to the Trust's performance against the NHS Constitution
- 4.1.5** The group will seek to undertake periodic patient and/or public consultations in line with Trust strategy and any proposed service changes in line with our Constituted Foundation Trust status.
- 4.1.6** The group will commission such research on the composition of the trust membership as it requires, to understand whether that membership is representative of the population served. The group will utilise these results to devise and implement recruitment strategies to ensure a representative membership is maintained. Normally such research will be led by the Communications Team supported by the Assistant Trust Secretary.
- 4.1.7** Act as a forum for sharing ideas, best practice and investigate alternative methods of delivery of identified staff and public engagement as required.

4.2 Oversight of the Trust Audit Processes

4.2.1 On behalf of the CoG, the group will monitor Northern Lincolnshire and Goole NHS Foundation Trust's performance against the Terms of Authorisation and Strategic Direction. This specifically relates to seeking assurance from the Trust Board Finance & Performance Committee and the Audit, Risk & Governance Committee.

4.3 External Audit

4.3.1 The CoG is responsible for the appointment of the Trust's external auditors and the task of assessing prospective candidate firms is delegated to a panel of Governors drawn from the GAG, supported by a member of the Audit, Risk & Governance Committee (normally the Chair thereof). The GAG will therefore oversee and approve recommendations to the CoG on the appointment of external auditors.

5.2.6 Attendees either from within or outside the Trust (e.g. from Integrated Care Board, Healthwatch, regulators or Integrated Care Partnership representatives) may be invited if deemed appropriate by the Group Chair or Vice-Chair, Trust Board Assurance Committee Chairs or specifically requested by Group members or the CoG.

5.3 Governor Assurance Group Elections

5.3.1 Members of the GAG shall be elected for the remainder of their term of office (although will be entitled to express an interest in standing for re-appointment if they are re-elected as a governor). When elections are required, they shall be held at the first meeting of the CoG in the calendar year. All Governors shall be entitled to vote, and all Governors except the Lead Governor (who is an ex officio member of the group) shall be entitled to stand.

5.3.2 At least one calendar month before the date of the meeting of the CoG the Director of Corporate Governance or their Deputy shall contact all Governors to invite expressions of interest. Ballot papers showing the names of all the nominated candidates shall be distributed with the papers and a secret ballot shall be conducted at the meeting (or electronically). The Director of Corporate Governance, or their nominee, shall act as returning officer and shall announce the results of the election before the close of the meeting when completed ballot papers will be made available for scrutiny by Governors as required.

5.3.3 Alternatively, expressions of interest will be sought by the Assistant Trust Secretary via e-mail and all Governors will be invited to vote with a set timescale. The results of the election will be announced via e-mail and an update will be provided at the next GAG Meeting. This will be included in the GAG Highlights Report to the next CoG meeting.

5.3.4 To ensure equitable representation, an electoral constraint shall be applied which requires that at least one staff governor and at least two public governors are elected to the group. Where there are no nominations from either of these groups, however, it is clear that it will not be possible to apply the constraint.

5.4 Other Provisions

5.4.1 Should the core membership of the GAG fall below the number specified in paragraph 5.1 then the remaining members shall have the authority to co-opt additional governors to serve on the committee provided that the total core membership is not exceeded. It is expected that the selection of co-opted members will be by consensus: where a vote is required this shall be determined by a simple majority of a show of hands. Such co-opted members shall serve until the next scheduled election to the GAG.

6.0 Procedural Issues

6.1 Frequency of Meetings

6.1.1 The frequency of meetings shall be as determined by the group, but there shall be at least six meetings of the GAG in any calendar year.

6.2 Chairperson

6.2.1 The Chair of the GAG shall be the Lead Governor. In the absence of the Chair the Deputy Lead Governor will Chair the meeting.

6.3 Secretary

6.3.1 Secretarial support will be provided by the Corporate Governance Team.

6.4 Attendance

6.4.1 Governors are required to attend in person and no deputies are permitted. The Director of Corporate Governance or Assistant Trust Secretary may nominate a deputy to attend in his/her absence as required.

6.4.2 It is expected that members will attend all meetings of the group. The minimum acceptable attendance is 50%; the Chair of the group will report attendance levels below this to the Trust Chair.

6.4.3 Where a member's attendance is below the acceptable attendance, the Chair may discuss the reasons for this with the individual Governor in order to ensure that their continued membership of the Group is in the best interests of the Group, the CoG and the member.

6.4.4 Where concerns about acceptable attendance levels cannot be resolved within the Group, then this matter will be referred to the next CoG business meeting for discussion and resolution.

6.5 Quorum

6.5.1 Four Governors shall form a quorum for the group. This provision shall not apply to any meeting immediately following a reduction in the number of core members, for whatever reason, when those present shall constitute a quorum. The co-opting of additional Governors to make up the full complement of members, as described in paragraph 5.4 above, shall be an item on the agenda at any such meeting.

6.6 Administration and Minutes of Meetings

6.6.1 Draft minutes will be submitted to the Chair for approval within ten working days of the meeting. On approval they will be distributed to all members of the group and forwarded to the Trust Chair's office for inclusion for information with the papers for the next CoG meetings.

6.7 Reports to be Provided to Meeting Members

6.7.1 Trust Board Committee Highlight Reports from the following committees:

- Audit, Risk & Governance Committee
- Finance & Performance Committee
- Quality & Safety Committee
- Strategic Development Committee
- Workforce Committee

6.7.2 Board Assurance Framework as an item for information.

6.7.3 Take receipt of the Trust Board approved Annual Financial Plan.

6.7.4 Annual National Staff Survey Results.

6.7.5 Inspection reports and updates from regulators ((Care Quality Commissioner (CQC), NHS England (NHSE)).

6.7.6 This list is not exhaustive but provides a basis for the regular flow of information for consideration by the Group.

Finance Update Report 2022/23: Month 8

1. Report Outline:

This report covers the Trust's financial performance for the 2022/23 financial year against the Trust's financial plan. It covers the following areas:

- Financial Position Overview;
- Forecast;
- Temporary Staffing
- Savings Programme;
- Capital;
- Balance Sheet, Cash and Working Capital;
- Underlying Financial Position;
- Conclusion

2. Financial Position Overview:

	M8 £m
Current month Actual I&E Surplus/(Deficit)	0.33
Current month Planned I&E Surplus/(Deficit)	(0.32)
Current month Variance I&E Surplus/(Deficit)	0.65
YTD Actual I&E Surplus/(Deficit)	(3.22)
YTD Planned I&E Account Surplus/(Deficit)	0.76
YTD Variance from Plan – I&E Surplus/(Deficit)	(3.99)

The Trust had a £0.33m surplus in November, £0.65m better than plan. However, the in-month position was supported through further release of £1.09m of non-recurrent technical reserves. The Trust is also behind its improvement trajectory in month by £0.52m.

The Trust now has a £3.22m year-to-date deficit, £3.99m worse than plan.

The Trust is formally forecasting a balanced financial position but is highlighting a deficit risk of **£7.6m**. This is predominantly driven through increased usage of temporary staffing, escalation beds and pay award pressures.

The current month and year-to-date Income and Expenditure Summary is included in Appendix 1

3. Full Year Forecast:

The Trust is currently £3.99m behind plan at the end of month 8. If no mitigating actions are taken, forecast assessments project a potential £7.59m end of year deficit risk.

The main drivers of the forecast deficit consist of:

	M7	M8	Change

Clinical Income (Lincs CCG)	(1.6)	(1.6)	0.0

Technical Reserve Release	1.6	2.7	1.1
CIP Non-Delivery (excl Technical)	(0.1)	0.0	0.1
Forecast Deficit	(8.5)	(7.6)	0.9

The forecast deficit risk position has been further refined in month to £7.59m. An in-month improvement of £0.9m predominantly driven through release of technical reserves in month of £1.1m as planned.

The Trust outlined a recovery trajectory at month 7, and whilst the month 8 position is a surplus, it is £0.52m adrift of the recovery trajectory in month.

4. Temporary Staffing Analysis:

As at Month 8, the Trust has spent £44.5m on agency, bank and locum variable pay, £3.60m more than the corresponding year-to-date period in 2021-22. Whilst covid-19 specific expenditure has reduced as planned, non-covid expenditure has increased.

5. Savings Programme:

2022/23 CIP DELIVERY AT 30TH NOVEMBER 2022

At the end of month 8, the Trust had delivered £6.83m of savings against its core year to date plan of £7.39m, an under delivery of £562k. This under delivery has been mitigated by reductions to COVID expenditure and non-recurrent in-year support through technical adjustments. As a result of these changes the year to date position for the full programme was £17.03m delivered against the plan of £14.33m.

The actual spend at 30th November was £15.4m, £15.2m relating to Trust funded schemes and £0.18m for donated and grant funded. The key variances are as follows:

- Ward 25 has now been completed and handed over to the clinical team.
- DPOW Gamma Camera scheme is progressing well, with no issues coming to light. The scheme is still expected to be completed in March 2023.
- The Emergency Department at DPOW was certified as complete on 25/11/22, with 24 minor defects remaining. Kier are anticipated to start demolition works for the AAU on 5/12/22. The Trust has now received confirmation of the delay to SGH ED, the completion date is now 28th February, this remains challenging. The Trust continues to review and manage in year slippage from this scheme by bringing forward schemes from 2023/24. We are also working with Hull to broker funding from 22/23 into 23/24.
- DPOW & SGH Theatres scheme has started, designs were ready for distribution on 5/12/22. The scheme is planned to be completed early April 2023.
- Facilities maintenance spent £0.95m to date, further orders have been placed totally £0.4m. Works relating to critical infrastructure water improvements and fire doors is progressing. The final phase of the oxygen works at DPOW has started; this should be completed before Christmas.

22/23 Recurrent in Year Cost Pressures	(4.6)	(4.6)
Revised Underlying Deficit 2022/23	(38.9)	(39.2)

Work is ongoing as part of 2023/24 planning to stress test the assumptions underpinning the recurrent nature of these cost pressures.

9. Conclusion:

The Trust had a £0.33m surplus in month with a year-to-date deficit of £3.22m and is forecasting a potential £7.59m deficit risk to the balanced financial plan.

The material issues for the Trust over the coming months are:

- Maximising its planned care activity delivery, with a requirement to return to 19-20 productivity and activity levels within its core capacity and budget, reducing reliance on IS and WLI premium costs.
- Delivering a challenging stretch CIP programme, mitigating risks to delivery and conversion of non-recurrent savings into recurrent delivery schemes and identifying new schemes.
- Reducing its additional Covid-19 expenditure as soon as possible.
- Reducing its material cost pressures, including additional beds, and additional duties in both Nursing and Medical Staffing.

Risk Appetite Statement - 2022 / 23

The Trust's risk appetite is:

- For risks threatening the safety of the quality of care provided – low (4 to 6)
- For risks where there is the potential for positive gains in the standards of service provided – moderate (8 to 12)
- For risks where building collaborative partnerships can create new ways of offering services to patients – moderate (8 to 12)

Context

Healthcare organisations like NLaG are by their very nature risk averse, the intention of this risk appetite statement is to make the Trust more aware of the risks and how they are managed. The purpose of this statement is to give guidance to staff on what the Trust Board considers to be an acceptable level of risk for them to take to ensure the Trust meets its strategic objectives. The risk appetite statement should also be used to drive action in areas where the risk assessment in a particular area is greater than the risk appetite stated below.

NLaG is committed to working to secure the best quality healthcare possible for the population it serves. A fundamental part of this objective is the responsibility to manage risk as effectively as possible in the context of a highly complex and changing operational environment. This environment presents a number of constraints to the scope of NLaG's risk management which the Board, senior management and staff cannot always fully influence or control; these include:

- how many patients need to access our services at any time and the fact our services need to be available 24/7 for them whether we have the capacity available or not
- the number of skilled, qualified and experienced staff we have and can retain, or which we can attract, given the extensive national shortages in many job roles.
- numerous national regulations and statutory requirements we must try to work within and targets we must try to achieve
- the state of our buildings, IT and other equipment
- the amount of money we have and are able to spend
- working in an unpredictable and political environment.

The above constraints can be exacerbated by a number of contingencies that can also limit management action; NLaG operates in a complex national and local system where the decisions and actions of other organisations in the health and care sector can have an impact on the Trust's ability to meet its strategic objectives including its management of risk.

Operating in this context on a daily basis Trust staff make numerous organisational and clinical decisions which impact on the health and care of patients. In fulfilling their functions staff will always seek to balance the risks and benefits of taking any action but the Trust acknowledges some risks can never be eliminated fully and has, therefore, put in place a framework to aide controlled decision taking, which sets clear parameters around the level of risk that staff are empowered to take and risks that must be escalated to senior management, executives and the Board.

Risk Management

The Trust will ensure 'risk management is everyone's business' and that staff are actively identifying risks and reporting adverse incidents, near misses or hazards. The Trust will look to create and sustain an open and supportive risk culture, seeking patients' views, and using the feedback as an opportunity for learning and improving the quality of our services. The Trust recognises it has a responsibility to manage risks effectively in order to:

- protect patients, employees and the community against potential losses;
- control its assets and liabilities;
- minimise uncertainty in achieving its goals and objectives;
- maximise the opportunities to achieve its vision and objectives.

Strategic Objective 1 - To give great care

Description of Strategic Objective 1 - 1.3: To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term.

Risk to Strategic Objective 1 - 1.3: The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.

***Board Assurance Framework (BAF) Descriptions:**

1.	To give great care
1.1	To ensure the best possible experience for the patient, focussing always on what matters to the patient. To seek always to learn and to improve so that what is offered to patients gets better every year and matches the highest standards internationally. <u>Risk to Strategic Objective:</u> The risk that patients may suffer because the Trust fails to deliver treatment, care and support consistently at the highest standard (by national comparison) of safety, clinical effectiveness and patient experience.
1.2	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to deliver constitutional and other regulatory performance targets which has an adverse impact on patients in terms of timeliness of access to care and/or risk of clinical harm because of delays in access to care.
1.3	To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term. <u>Risk to Strategic Objective:</u> The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.
1.4	To offer care in estate and with engineering equipment which meets the highest modern standards. <u>Risk to Strategic Objective:</u> The risk that the Trust's estate, infrastructure and engineering equipment may be inadequate or at risk of becoming inadequate (through poor quality, safety, obsolescence, scarcity, backlog maintenance requirements or enforcement action) for the provision of high quality care and/or a safe and satisfactory environment for patients, staff and visitors.
1.5	To take full advantage of digital opportunities to ensure care is delivered as safely, effectively and efficiently as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's digital infrastructure (or the inadequacy of it) may adversely affect the quality, efficacy or efficiency of patient care and/or use of resources, and/or make the Trust vulnerable to data losses or data security breaches.
1.6	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's business continuity arrangements are not adequate to cope without damage to patient care with major external or unpredictable events (e.g. adverse weather, pandemic, data breaches, industrial action, major estate or equipment failure).
2.	To be a good employer
2.	To develop an organisational culture and working environment which attracts and motivates a skilled, diverse and dedicated workforce, including by promoting: inclusive values and behaviours, health and wellbeing, training, development, continuous learning and improvement, attractive career opportunities, engagement, listening to concerns and speaking up, attractive remuneration and rewards, compassionate and effective leadership, excellent employee relations. <u>Risk to Strategic Objective:</u> The risk that the Trust does not have a workforce which is adequate (in terms of diversity, numbers, skills, skill mix, training, motivation, health or morale) to provide the levels and quality of care which the Trust needs to provide for its patients.
3.	To live within our means
3.1	To secure income which is adequate to deliver the quantity and quality of care which the Trust's patients require while also ensuring value for money for the public purse. To keep expenditure within the budget associated with that income and also ensuring value for money. To achieve these within the context of also achieving the same for the Humber Coast and Vale HCP. <u>Risk to Strategic Objective:</u> The risk that either the Trust or the Humber Coast and Vale HCP fail to achieve their financial objectives and responsibilities, thereby failing in their statutory duties and/or failing to deliver value for money for the public purse.
3.2	To secure adequate capital investment for the needs of the Trust and its patients. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to secure and deploy adequate major capital to redevelop its estate to make it fit for purpose for the coming decades.
4.	To work more collaboratively
4.	To work innovatively, flexibly and constructively with partners across health and social care in the Humber Coast and Vale Health Care Partnership (including at Place), and in neighbouring Integrated Care Systems, and to shape and transform local and regional care in line with the NHS Long Term Plan. <u>Risk to Strategic Objective:</u> The risk that the Trust is not a good partner and collaborator, which consequently undermines the Trust's or the healthcare systems collective delivery of: care to patients; the transformation of care in line with the NHS Long Term Plan; the use of resources; the development of the workforce; opportunities for local talent; reduction in health and other inequalities; opportunities to reshape acute care; opportunities to attract investment.
5.	To provide good leadership
5.	To ensure that the Trust has leadership at all levels with the skills, behaviours and capacity to fulfil its responsibilities to its patients, staff, and wider stakeholders to the highest standards possible. <u>Risk to Strategic Objective:</u> The risk that the leadership of the Trust (from top to bottom, in part or as a whole) will not be adequate to the tasks set out in its strategic objectives, and therefore that the Trust fails to deliver one or more of these strategic objectives

Board Assurance Framework – Quarter Two 2022-23

1. Purpose of the Report

- 1.1. To present the BAF to the Trust Board for assurance and for the Board to review current scoring of the strategic risks and to note the referenced high-level risks.
- 1.2. The Trust Board is to receive the BAF (Appendix 2) and the High-Level Risk Register (Appendix 1), to gain assurance that it is operating as part of the Trust's overarching governance / control systems.
- 1.3. All strategic risks have been reviewed by the Executive Owners and the Trust Board Committees during quarter two.

The exception to this, is the Strategic Development Committee will review strategic risks SO1.3, SO3-3.2 and SO4 at its meeting on 15 December 2022. The Executive Director has reviewed each of these risks.

2. Strategic Objective Risk Ratings: 2022-23 Quarter Two

- 2.1. The table below illustrates the current risk rating of each Strategic Objective against the target risk rating by the end of March 2023:

Strategic Objective	2022-23			Risk Appetite Score
	Risk Rating Quarter 1	Risk Rating Quarter 2	Target Risk by 31/03/2023	
SO1-1.1	15	15	15	4-6
SO1-1.2	20	20	15	4-6
SO1-1.3	12	12	8	4-6
SO1-1.4	20	20	20	4-6
SO1-1.5	9	9	6	4-6
SO1-1.6	16	16	8	4-6
SO2	20	20	12	4-6
SO3-3.1	15	20	20	8-12
SO3-3.2	12	20	20	8-12
SO4	12	8	8	8-12
SO5	12	8	8	8-12

- 2.2. The Board is to note that several strategic risks remain at a high level of 15 and above as detailed in the above table.
- 2.3. SO3-3.1 and SO3-3.2 risk ratings have increased since the quarter one BAF report and have a number of significant gaps in controls..

SO3-3.1 – Gaps in Controls:

- Systems plans may not address individual organisational sustainability
- Challenges with HASR, CIP Delivery
- Uncertainty on application of long term financial framework.
- Clinical strategy required to inform Finance Strategy

- As we progress, the emerging uncertainty around the financial implications of decisions from the HAS process
- Month on month adverse variants against operational budgets

SO3-3.2 – Gaps in Controls:

- Comprehensive programme of Control and Assurance - potential inherent risk on ability of Trust to afford internal capital for major spend
- Control environment whilst comprehensive may not have ability to influence availability of Strategic Capital - investment funding/affordability
- Control environment may not be able to eliminate or reduce risk of estates condition in the short term

3. High-Level Risk Register (HLRR)

3.1. The HLRR is presented to the Board to provide oversight of the high-level risks linked to each strategic risk, which could have an impact on the achievement of the strategic risks and objectives. The high-level risks are monitored within Divisions and at the Risk Management Group. Trust Board Committees have received the HLRR as part of the quarterly review.

3.2. There are two high level risks scored at 25: No 2421 Nurse Staffing, and No 2976 Registered Nursing Vacancies.

3.3. There are 12 high level risks scored at 20:

- No 1620 Medical Gas Pipeline System,
- No 2038 Fire Compliance,
- No 2088 Building Management Systems Controller,
- No 2145 Quality of Care and Patient Safety (due to nurse staffing position),
- No 2530 Poor Registered Nursing Skill Mix on Wards,
- No 2562 Failure to meet Constitutional Targets in Emergency Care Centre,
- No 2623 Failure of Windows,
- No 2655 SGH Replacement of primary heat source and associated infrastructure and equipment,
- No 2719 Water Safety Compliance,
- No 2949 Oncology Service,
- No 2951 Electrical age and resilience of low voltage electrical infrastructure,
- No 3015 Insufficient estate resources to manage the workload demand.

4. Internal Audit Report - BAF

4.1. Following the internal audit report on the BAF, work continues to action the recommendations in quarter two/three 2022-23. Progress to date includes, assurance against planned actions and an assurance mapping exercise has been completed which considered the effectiveness of the controls and verified that assurances were being received for all the identified controls.

5. Recommendations

The Trust Board is asked to:

- receive the BAF executive report detailed above
- receive the BAF and strategic risk register in detail (Appendix 2)

- c) note the risk scoring, as at 30 November 2022 for each of the strategic risks
- d) receive the High-Level Risk Register (Appendix 1) and note the high-level risks detailed in section 3.2 and 3.3 of the report that could have an impact on the achievement of the strategic risks and objectives
- e) seek assurance on the current risk rating and target risk rating of each of the strategic risks, from the Chairs of each of the Trust Board Committees and the Executive Owners
- f) note work has commenced to action the recommendations from the internal audit on the BAF
- g) note an assurance mapping exercise has been undertaken to consider the effectiveness of the controls and verify that assurances were being received for all the identified controls.

Compounding the risk is the limited (11 personnel) number of staff holding the duties of an Authorised Person (AP) for specialist engineering fields. This is intensified by the inability of the internal project team to recruit to technical roles to support the clinical schemes. The server is already showing signs of obsolescence with frequent crashes and system errors increasing reliance on manual processes. These processes are described in the business continuity plans however they have not been tested for prolonged outages as posed by the current set up and have inherent risk such as transcription errors increasing patient safety risks. Should the server fail the electronic requesting of pathology test for GP surgeries across all Lincolnshire and Northern Lincolnshire CCGs would be unavailable. ***Board Assurance Framework (BAF) Descriptions:**

1.	To give great care
1.1	To ensure the best possible experience for the patient, focussing always on what matters to the patient. To seek always to learn and to improve so that what is offered to patients gets better every year and matches the highest standards internationally. <u>Risk to Strategic Objective:</u> The risk that patients may suffer because the Trust fails to deliver treatment, care and support consistently at the highest standard (by international comparison) of safety, clinical effectiveness and patient experience.
1.2	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to deliver constitutional and other regulatory performance targets which has an adverse impact on patients in terms of timeliness of access to care and/or risk of clinical harm because of delays in access to care.
1.3	To engage patients as fully as possible in their care, and to engage actively with patients and patient groups in shaping services and service strategies. To transform care over time (with partners) so that it is of high quality, safe and sustainable in the medium and long term. <u>Risk to Strategic Objective:</u> The risk that the Trust (with partners) will fail to develop, agree, achieve approval to, and implement an effective clinical strategy (relating both to Humber Acute Services and to Place), thereby failing in the medium and long term to deliver care which is high quality, safe and sustainable.
1.4	To offer care in estate and with engineering equipment which meets the highest modern standards. <u>Risk to Strategic Objective:</u> The risk that the Trust's estate, infrastructure and engineering equipment may be inadequate or at risk of becoming inadequate (through poor quality, safety, obsolescence, scarcity, backlog maintenance requirements or enforcement action) for the provision of high quality care and/or a safe and satisfactory environment for patients, staff and visitors.
1.5	To take full advantage of digital opportunities to ensure care is delivered as safely, effectively and efficiently as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's digital infrastructure (or the inadequacy of it) may adversely affect the quality, efficacy or efficiency of patient care and/or use of resources, and/or make the Trust vulnerable to data losses or data security breaches.
1.6	To provide treatment, care and support which is as safe, clinically effective, and timely as possible. <u>Risk to Strategic Objective:</u> The risk that the Trust's business continuity arrangements are not adequate to cope without damage to patient care with major external or unpredictable events (e.g. adverse weather, pandemic, data breaches, industrial action, major estate or equipment failure).
2.	To be a good employer
2.	To develop an organisational culture and working environment which attracts and motivates a skilled, diverse and dedicated workforce, including by promoting: inclusive values and behaviours, health and wellbeing, training, development, continuous learning and improvement, attractive career opportunities, engagement, listening to concerns and speaking up, attractive remuneration and rewards, compassionate and effective leadership, excellent employee relations. <u>Risk to Strategic Objective:</u> The risk that the Trust does not have a workforce which is adequate (in terms of diversity, numbers, skills, skill mix, training, motivation, health or morale) to provide the levels and quality of care which the Trust needs to provide for its patients.
3.	To live within our means
3.1	To secure income which is adequate to deliver the quantity and quality of care which the Trust's patients require while also ensuring value for money for the public purse. To keep expenditure within the budget associated with that income and also ensuring value for money. To achieve these within the context of also achieving the same for the Humber Coast and Vale HCP. <u>Risk to Strategic Objective:</u> The risk that either the Trust or the Humber Coast and Vale HCP fail to achieve their financial objectives and responsibilities, thereby failing in their statutory duties and/or failing to deliver value for money for the public purse.
3.2	To secure adequate capital investment for the needs of the Trust and its patients. <u>Risk to Strategic Objective:</u> The risk that the Trust fails to secure and deploy adequate major capital to redevelop its estate to make it fit for purpose for the coming decades.
4.	To work more collaboratively
4.	To work innovatively, flexibly and constructively with partners across health and social care in the Humber Coast and Vale Health Care Partnership (including at Place), and in neighbouring Integrated Care Systems, and to shape and transform local and regional care in line with the NHS Long Term Plan. <u>Risk to Strategic Objective:</u> The risk that the Trust is not a good partner and collaborator, which consequently undermines the Trust's or the healthcare systems collective delivery of: care to patients; the transformation of care in line with the NHS Long Term Plan; the use of resources; the development of the workforce; opportunities for local talent; reduction in health and other inequalities; opportunities to reshape acute care; opportunities to attract investment.
5.	To provide good leadership
5.	To ensure that the Trust has leadership at all levels with the skills, behaviours and capacity to fulfil its responsibilities to its patients, staff, and wider stakeholders to the highest standards possible. <u>Risk to Strategic Objective:</u> The risk that the leadership of the Trust (from top to bottom, in part or as a whole) will not be adequate to the tasks set out in its strategic objectives, and therefore that the Trust fails to deliver one or more of these strategic objectives
